

Executive Summary

Prepared for Board of Trustees Meeting

June 8, 2021

Disaster Recovery Services Claim Preparation Report and Winter Storm Remediation Update

BOARD GOALS

Growth & Management

- Demonstrate effective and efficient management of district resources
- Provide leadership and/or oversight to ensure District meets all fiscal, legal and regulatory requirements

PURPOSE OF REPORT

This report serves to update the Board of Trustees about the Winter Storm remediation efforts as it relates to building renovations, project management, and insurance claim preparation.

OBJECTIVES

1. To report on the Winter Storm remediation efforts
2. To inform the Trustees of the Disaster Recovery Services agreement

OPERATIONAL IMPACT

Continued efforts to complete the scope of work necessary to repair District buildings and campuses are being done at this time. Denton ISD is working with three remediation vendors to complete the work.

Disaster Recovery Services (DRS) has been selected to provide disaster cost recovery services related to the winter storm, including insurance claims and FEMA recovery. As a part of Phase I of the agreement with DRS, protocols were established for comprehensive loss measurement and strategies for recovery. In Phase II, DRS will be providing assistance with the preparation, review, submittal, and settlement/close out of the District's disaster cost recovery claims. TASB Risk Management will reimburse Denton ISD for any fees associated with DRS services.

RESULTS

As a result of these efforts, District buildings and campuses will be restored in order to facilitate student learning and conduct business as usual. Additionally, DRS will help ensure continuity when preparing for insurance and/or FEMA claim reimbursement.
