Needs Assessment Summary and Improvement Plan

| | |
|----------------------------|---|
| Definition/Purpose: | <p>After your data analysis yields a summary of findings that results in a set of problem statements, the next step is to engage in the needs assessment process to identify root causes. The 5 steps of the root causes assessment include:</p> <p>Step 1: Clarify and prioritize problem statements Step 2: Establish the purpose of assessing root causes and establish the team Step 3: Gather data Step 4: Review data analysis Step 5: Root cause analysis</p> <p>The needs assessment process is intended to safeguard against planning or implementing strategies before the root cause of a problem is understood.</p> |
|----------------------------|---|

| | | | | | |
|--|---------------|--|--|-----------------------|---|
| Problem Statements (PS): <i>Problem statements are carried over from Section VI of the Campus Data Analysis tab OR Section VI of the District Data Analysis Summary tab.</i> | PS 1: | 47 % of Goliad 3rd, 4th, and 5th graders met standard on the 2016 STAAR Reading assessment | is occurring because of Root Cause #1 | Root Cause 1: | Teachers did not teach the process standards for reading with fidelity |
| | PS 2: | 54% of Goliad 3rd, 4th, and 5th graders met standard on the 2016 math STAAR assessment | is occurring because of Root Cause #2 | Root Cause 2: | Teachers did not teach to the level of TEKS required for STAAR mastery in math |
| | PS 3: | 38% of the Goliad 4th graders met standard on the 2016 STAAR writing assessment | is occurring because of Root Cause #3 | Root Cause 3: | Teachers have not fully implemented Writer's Workshop and revising and editing TEKS |
| | PS 4: | 39% of Goliad 5th graders met standard on the 2016 Science STAAR assessment | is occurring because of Root Cause #4 | Root Cause 4: | Teachers did not follow the district scope and sequence for science |

Identified and Prioritized Root Causes:

It is important to prioritize your root causes so that your improvement plan is targeted and focused. Although a TEC §11 campus/district improvement plan is critical to overall success, the TEC §39 targeted improvement plan is intended to address the specific reasons for low performance in the state accountability, PBM, or RF system.

If the district or campus would like to identify more than 10 root causes, contact the support specialist assigned to the review.

***** Important Notice! Improvement Required (IR) districts/campuses must complete the following attestation statement to fulfill TEC §39.106 requirements.*****

Attestation Statement: By checking the box, I attest that an on-site needs assessment has been conducted according to TEC §39.106 (b) and recommendations were made by the intervention team when considered appropriate. In addition, these findings have been recorded and are available upon request.

As teachers become proficient in understanding the process standards and learn strategies for instruction, student comprehension and application will increase. Evidence of the success of this strategy will be evident in classroom discussions, formative assessments, and district designed unit assessments. Data collected through formative assessments and unit assessments will guide job embedded professional development provided by campus instructional support staff. Data disaggregation of the unit assessments by student expectations and by student will provide detail for instruction and interventions. |

Teachers will use instructional tools available through the TEKS Resource System to understand the vocabulary and complexity of the TEKS. Teachers will also use vertical planning and vertical alignment documents to make connections to prior learning and close gaps. Data will be collected through formative assessments and unit assessments. Examination of the student expectation mastery reports will reveal SEs that will need review/teach and student level data reports will reveal students who need to participate in interventions.</p> |
