

# **Career and Technical Education**

## **Directors Report**

**January 2019**

- 1. We have scheduled tours of the Tech Center for prospective students from our local schools in January and February.**
- 2. The Health Occupations competition hosted by our own Sherie Courchaine is at Bay West on January 9<sup>th</sup>. Seventy Tech Center students are registered to compete. There are team events in biomedical debate, community awareness, creative problem solving, EMT, forensic science, health education and public service announcement. There are many individual events testing student public speaking, health knowledge or hands on skills.**
- 3. Many of the other programs also have competitions coming up in the next couple of months. The students are working hard, prepping to attend.**
- 4. Ashley Rogers, Bay College's Dual Enrollment coordinator, was at the Tech Center on December 13<sup>th</sup> to assist us with signing students up for second semester dual enrollment credits in mechatronics, networking, and welding. It will be good for us to have one go to person at Bay College for our Dual Enrollment and Early Middle College students.**
