ITEM

GOAL: 1

OBJECTIVE: 1.1

---

---

**SUBJECT:**

Consider approval of the Targeted Intervention Plans (TIP) for Samuel Walker Houston Elementary School and Estella Stewart Elementary School

**RATIONALE:**

To assist campuses identified as needing Comprehensive Support, the Texas Education Agency requires campuses to participate in the School Improvement Process. As part of this process, each Campus Leadership Team (CLT) with the support of a District Coordinator of School Improvement (DCSI) creates a Targeted Improvement Plan (TIP). Using the state's Effective Schools Framework, each campus has identified an Essential Action that will assist them in ensuring that students will continue to make needed progress. To exit Comprehensive Support and improvement, a campus must not rank in its school type's bottom five percent of the Closing the Gaps domain for two consecutive years.

**RECOMMENDATION:**

The administration recommends the Board approve the Targeted Intervention Plans for Samuel W. Houston Elementary School and Estella Stewart Elementary School.
