Results

The IB Continuum would like to inform the School Board of our current progress and our future needs. We look forward to the successful continuation of graduates with a DP diploma which will enrich the futures of those students and enable them to earn college credits. The IB Continuum wishes to showcase the growth of the program through the in-district and out-of-district student transfer data which demonstrates an increase of public interest in the IB program overall. Additionally, we would like to inform the School Board of the activities going on in the different IB programmes.
