

Board Report for April 11, 2016

Maintenance:

Everything is okay. We have been really busy. I finally have been able to hire two custodians at the Middle/ Elementary School, Peggy Hernandez and Irene Gonzales. So far things are doing well over there. Janet had been covering both areas for about two to two and a half months. I am getting things together to set up for the servers over at the Middle School to be moved to High School and the new data line coming in. I have also been with the Electrical Engineers last week to look at our electrical service for the blue prints. I have been very busy.

Transportation:

Rocky has been driving a lot and hasn't been able to help in maintenance much. We have a lot of trips going right now and it has been crazy. I have been trying to keep vehicles serviced and rolling down the road. Knock on wood, everything is running good. It's very busy.
