

Principal's School Board Report  
Mitkof Middle School/Petersburg High School  
2/10/26

- The curriculum committee for Social Studies has completed the rough draft of the document for the Board Meeting. This will be made available by the board meeting (assembly still underway).
- Review of materials is underway for Social Studies. Elementary has some samples at this time. Other for Elementary and Secondary will be arriving soon.
- We are into the 3rd Quarter. This is bringing next year's scheduling into focus.
  - We have developed a schedule for next year splitting the lunches so that all lunches and eating can be accommodated in the café/cantina. This should help with cleanliness and custodial workloads.
  - The split lunch schedule will reduce the number of periods we can share staff between the HS and MS by 2. This creates a few challenges with course scheduling. We are working through those issues to make the most of the situation.
  - The new schedule also adjusts for longer Advisory periods twice a week to accommodate the slightly longer Wayfinder SEL lessons. This means that we will have three bell schedules: one for Monday and Wednesday, one for Tuesday and Thursday, and one for Friday. In this manner we meet the expanding demands on time without reducing too much from the class meeting times.

Student Counts: MMS = 121  
PHS = 143
