

## Nippersink District 2 Board of Education

---

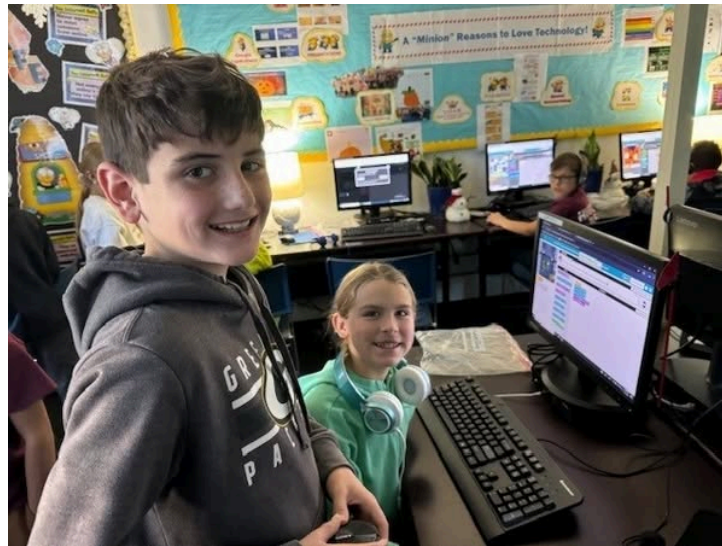

The mission of Nippersink District 2 is to foster academic growth, instill integrity, confidence, and civic responsibility while preparing all students for an ever-changing global society.

**Spring Grove Elementary School**  
**December 18, 2024**

### **Curriculum**

Students participated in the Hour of Code, an initiative by Code.org to promote computer science education. During the event, students explored coding fundamentals through engaging, age-appropriate activities, such as creating simple animations, solving puzzles, and programming interactive games. The experience introduced many students to the world of coding, hoping to provide excitement about technology and its possibilities.

## School Celebrations

SGE is happy to participate with the high school by welcoming student leaders to visit once a month. These visits aim to inspire and uplift elementary students by providing positive role models who encourage good character, leadership, and academic effort. Last month, the high school students participated in activities during physical education class with 4th and 5th grade students through fun and interactive games. This collaboration helps foster a sense of connection and motivation, creating a supportive and unified school community.
