Sept 20<sup>th</sup>-Nov 17<sup>th</sup>  
Contact the KLC for more  
information.

# Teacher Tip of the Month by: Maria Riedel, School Counselor

## FIT

When students begin exploring their steps for after graduation one of the considerations is “Is this the right fit for me?” When thinking of the concept of FIT we are looking at the following:

- The right mix of challenge, opportunity, and support needed to help students advance your growth and achievement of goals.
- The atmosphere of the college/university/training program.
- Academic reputation-how seriously do student take their studies?
- Social reputation-how seriously do students take their non-studying?
- Flexibility-can students spend the first one/two years exploring majors, or must they declare right away?
- Friendliness-how supportive and accessible are college personnel in helping students?
- Competitiveness-how supportive are students of one another?

### Ways to explore FIT

- Campus visit
- Online tours
- High School visit
- College guides

FIT is just one thing to consider when looking at post-secondary options but a great way to start.

If your family is interested in learning more about programs for after high school please reach out to me so we can work together to see what FITS!
