

Special Programs

May, 2016

Special Education

This is the season for Transition IEP's. Every year in the Spring, FCS Kindergarten Teachers, Speech/Language Pathologists, and K-4 LRC Teachers have joint transition IEP meetings to create school-age IEP's for the incoming kindergarteners that have already been qualified in Early Childhood Intervention. This year we had 14 of these. We meet with the parents, their Headstart teachers, and other support staff from their programs. It is very helpful to start planning services for this upcoming year.

English Language Learners

We are making changes to the ELL Improvement plan, from the feedback we received from ODE.

AVID- Advancement via Individual Determination

The AVID t-shirts are here and the students did an amazing job in designing them.

Both schools are getting geared up for their field trips in the month of May. The SHS AVID students will be visiting; UC Davis, University of Santa Clara, Stanford University, and Southern Oregon University. Falconer Chapman students are going to visit Linfield.

Homeless

We have had several groups of volunteers coming into the Angel's Attic. The Sheridan Japanese School sent 12 students over on Friday April 29th to work on projects. We are finally all put together and are now having the winter clothing and coats boxed up to put in storage until next winter.
