### **318 RELATIONS WITH EDUCATION RESEARCH AND SERVICE CENTERS**

The district shall cooperate as much as possible with the colleges, universities, and education cooperative service units in promoting potentially useful research. Because of the large number of requests for studies in the schools, it is necessary to establish limitations and guidelines for the approval of such studies.

Research requests shall address the following:

1. the objectives of the research should be clearly stated and the design such as to produce valid and reliable results to be made available to the district;
2. the project should contribute something of value for the improvement of education;
3. instructional activities will not be interrupted unless there is a clear significant value for the district's educational program.
4. Final approval for such requests shall be made by the Superintendent.
