

Minidoka County School District

# Technology Dept Report

## December 11, 2017

### Classroom Technology

- We completed reimaging two of the old carts from East. (60 laptops)
- We have solved most of the airplay problems by repairing the laptop or iPad.
- We have completely installed new software on all the labs and servers to be ready for winter and spring testing on SBAC and WIDA.

### Security/Video

- Wiring for the new locks at the District Service Center have been pulled. We are hoping to get the equipment installed before December.

### HVAC

- The new HVAC computer equipment has been installed by Carrier at both Rupert Elementary and Minico High School. A virtual network between the two buildings had to be setup for it to work properly.

### Work Orders

September	October	November
