Independent Auditor's Report on Financial Statements

Board of Trustees Quanah Independent School District P.O. Box 150 Quanah, Texas 79252

Members of the Board of Trustees:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Quanah Independent School District (the District) as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Quanah Independent School District as of August 31, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note A to the financial statements, in 2018, Quanah Independent School District adopted new accounting guidance, Government Accounting Standard Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, and schedules related to the District's participation in the Teacher Retirement System identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, other supplementary information, and required Texas Education Agency Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The other supplementary information, Texas Education Agency Schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information, except for that portion labeled 'unaudited' on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information, Texas Education Agency Schedules, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 3, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Respectfully submitted,

Edgin, Parkam, Flering : Flering, PC

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Quanah Independent School District, we offer readers of the District's Annual Financial Report this narrative overview and analysis of the District's financial performance during the fiscal year ended August 31, 2018. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's assets exceeded its liabilities at August 31, 2018 by \$7,336,654 (net position). Of this amount, \$281,897 (unrestricted net position) may be used to meet the District's obligations.
- During the year, the District's total net position increased by \$1,065,462. The District's expenses, which totaled \$6,537,971, were less than the District's program revenues of \$953,251 and general revenues of \$6,650,182.
- The total cost of the District's programs decreased \$1,778,764 (a 22% decrease) from last year. This decrease is mostly due to a change in benefits related to the District's participation in the Teacher Retirement System of Texas (TRS) "TRS-Care" program which is considered an Other Postemployment Benefit Obligation (OPEB).
- The governmental funds reported a fund balance this year of \$4,869,909, which is an increase of \$316,689 in comparison with the prior year amount.
- At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$2,633,265, or 40% of the total General Fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

All of the District's services are reported in the government-wide financial statements, including instruction, student support services, student transportation, general administration, school leadership, and food services. Property taxes, state and federal aid, and investment earnings finance most of the activities. Additionally, all capital and debt financing activities are reported here.

The government-wide financial statements are designed to provide readers a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the District's financial position is improving or deteriorating.

The statement of activities details how the District's net assets changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected property taxes and earned but unused vacation leave).

Fund Financial Statements

The District uses fund accounting to keep track of specific sources of funding and spending for particular purposes. The fund financial statements provide more detailed information about the District's most significant *funds* – not the District as a whole. Some funds are required by State law and or bond covenants. Other funds may be established by the District to control and manage money for particular purposes or to evidence appropriate use of certain taxes, grants, and other special revenues.

All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's short-term financing requirements.

Because the focus on *governmental funds* is narrower than that of government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's short-term financing decisions. Reconciliations are provided for both the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances. These reconciliations facilitate the comparison between *governmental funds* and *governmental activities*.

The District maintained multiple governmental funds in fiscal year 2017-18. Information is presented separately in the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balance for the General Fund and the Special Education Fund, which are considered to be major funds. Financial data for the other governmental funds are combined into a single, aggregated presentation.

Fiduciary funds are used to account for resources held for the benefit of parties outside of the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's programs. The District is the trustee, or *fiduciary*, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All the District's fiduciary activities are reported in a separate statement of fiduciary net position.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to obtain a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the information in the financial statements. Immediately following the *required supplementary information* is the *other supplementary information* which includes required TEA schedules.

Government-wide Financial Analysis

As noted previously, net position may serve over time as a useful indicator of a government's financial position. Exhibited below in Table 1 is the District's net position summarized for the *governmental activities*.

| | Governmental Activities | | | | | |
|--------------------------------|-------------------------|---------------|----------------|----------|--|--|
| | 2018 | 2017 | Change | % Change | | |
| Current and other assets | \$ 5,712,953 | \$ 5,081,844 | \$ 631,109 | 12% | | |
| Capital assets, net | 8,953,995 | 9,181,194 | (227,199) | -2% | | |
| Total Assets | 14,666,948 | 14,263,038 | 403,910 | 3% | | |
| Deferred Outflows of Resources | 778,663 | 737,855 | 40,808 | 6% | | |
| Current liabilities | 794,620 | 499,598 | 295,022 | 59% | | |
| Noncurrent liabilities | 5,792,088 | 3,432,423 | 2,359,665 | 69% | | |
| Total Liabilities | 6,586,708 | 3,932,021 | 2,654,687 | 68% | | |
| Deferred Inflows of Resources | 1,522,249 | 284,694 | 1,237,555 | 435% | | |
| Net position: | | | | | | |
| Net investment in capital | | | | | | |
| assets | 7,054,757 | 7,167,660 | (112,903) | -2% | | |
| Restricted | - | 2,633 | (2,633) | N/A | | |
| Unrestricted | 281,897 | 3,613,885 | (3,331,988) | -92% | | |
| Total Net Position | \$ 7,336,654 | \$ 10,784,178 | \$ (3,447,524) | -32% | | |
| | | | | | | |

Table 1 - District's Net Position

Net investment in capital assets (e.g. land, buildings, furniture, and equipment less any related debt) is \$7,054,757. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

The District's unrestricted net position of \$281,897 may be used to meet the District's ongoing obligations.

Changes in Net Position

The District's total revenues, both program and general, were \$7,531,612. A significant portion, 40%, of the District's revenue comes from property taxes. Unrestricted grants and contributions, which includes state aid formula grants, provided 44% of the revenues. Meanwhile, operating grants provided 11% of the District's revenues. Exhibited below in Table 2 are the District's revenues for the years ended August 31, 2018 and 2017 for the District's *governmental activities*.

| | Governmental Activities | | | | | |
|--------------------------|-------------------------|------------|---------|----|-----------|---------|
| | | 2018 | Percent | | 2017 | Percent |
| Charges for services | \$ | 73,384 | 1% | \$ | 88,011 | 1% |

| | | | | - | | |

Table 2 - District's Revenues

Exhibited below in Table 3 are the District's expenses for the years ended August 31, 2018 and 2017 for the District's *governmental activities*. The total cost of all programs and services was \$6,466,150. Instructional and related costs totaled 47% of these costs while student support was 20% and nonstudent support was 14%.

Table 3 - District's Expenses

| | Governmental Activities | | | | | |
|-------------------------|-------------------------|-----------|---------|----|-----------|---------|
| | | 2018 | Percent | - | 2017 | Percent |

| School leadership | | 291,771 | | 380,086 | (88,315) | -23% |
| Guidance, counseling, and evaluation services | | 345,579 | | 493,087 | (147,508) | -30% |
| Health services | | 40,034 | | 61,520 | (21,486) | -35% |
| Student transportation | | 148,561 | | 160,345 | (11,784) | -7% |
| Food services | | 340,909 | | 432,901 | (91,992) | -21% |
| Cocurricular/extracurricular activities | | 422,958 | | 378,130 | 44,828 | 12% |
| General administration | | 452,604 | | 466,438 | (13,834) | -3% |
| Facilities maintenance and operations | | 847,777 | | 855,012 | (7,235) | -1% |
| Security and monitoring services | | 18,570 | | 48,859 | (30,289) | -62% |
| Data processing services | | 61,888 | | 71,064 | (9,176) | -13% |
| Community services | | 1,269 | | 1,267 | 2 | 0% |
| Interest on long-term debt | | 65,523 | | 68,856 | (3,333) | -5% |
| Payments related to shared service | | | | | | |
| arrangements | | 194,497 | | 137,010 | 57,487 | 42% |
| Other intergovernmental charges | | 77,170 | | 53,979 | 23,191 | 43% |
| Total expenses | | 6,466,150 | 8 | 3,244,914 | (1,778,764) | -22% |
| Change in net position | \$ | 1,065,462 | \$ | (104,769) | \$ 1,170,231 | 1117% |

Many of the fluctuations noted above are related to the implementation of GASB 75. The District is required to report on-behalf contributions at the government-wide level for their proportion of the change in OPEB liability and deferred balances recognized by the State of Texas on-behalf of the District. As described in Note I in the Notes to the Financial Statements, the current year OPEB expense recognized by the State of Texas was a negative \$1,005,114 and the actual on-behalf payments were \$35,911. Therefore, \$1,041,025 in negative operating grants and contributions is recognized at the government-wide level. As a result of this negative amount, the Statement of Activities reflects overall operating grants and contributions of \$808,044. Had this adjustment not been required, the Statement of Activities would have shown \$1,849,070 in program revenue for operating grants and contributions for the year ended August 31, 2018. The current year GASB 75 experience also resulted in a reduction of the District's expenses in almost all functional areas. In addition, the following fluctuations from the prior year were noted:

- Grants and contributions not restricted increased \$209,021 or about 7% from the prior year mostly due to a larger SHARS cost report settlement payment received in the current year.
- Miscellaneous revenue increased \$173,343 due to additional payments related to the District's windfarm Chapter 313 agreement.

Table 5 presents the net cost of the District's governmental functions (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by local tax dollars, state aid, and other miscellaneous general revenues.

| | Governmental Activities | | | | | |
|-------------------------|-------------------------|-----------|---------|----|-----------|---------|
| | | 2018 | Percent | | 2017 | Percent |
| Instructional & related | \$ | 2,926,107 | 52% | \$ | 3,535,940 | 58% |

Table 5 - Net Cost of Selected District Functions

Financial Analysis of the District's Funds

As previously stated, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements and segregation for particular purposes.

Governmental Funds

The focus of the District's governmental funds is to provide information on short-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of August 31, 2018, the District's governmental funds reported a combined ending fund balance of \$4,869,909, an increase of \$316,689 from the previous year. Table 6 illustrates the fund balances of the governmental funds.

Table 6 - Governmental Funds - Fund BalancesAugust 31, 2018

| | General | Other | |
|---------------------|--------------|---------------|-----------------|
| | Fund | Funds | Totals |
| Committed | \$ 2,225,040 | \$ 11,604 | \$ 2,236,644 |
| Unassigned | 2,633,265 | 5 4 70 | 2,633,265 |
| Total Fund Balances | \$ 4,858,305 | \$ 11,604 | \$ 4,869,909 |
| | - | | |

General Fund

At the end of the current fiscal year, the ending fund balance for the General Fund was \$4,858,305 of which \$2,633,265 was unassigned. The total fund balance represents 73% of the total General Fund expenditures for the year ended August 31, 2018. The fund balance increased \$319,153 in the current fiscal year.

General Fund revenues totaled \$6,957,904, an increase of \$579,135 or about 9% from the preceding year.

General Fund expenditures totaled \$6,617,331, an increase of \$175,928 or 3% from the preceding year. The functional categories that changed the most were as follows:

- Cocurricular/extracurricular activities increased \$109,838 or 31%. This increase was due to an increase in salaries and the purchase of weight room equipment in the current year.
- General administration costs increased \$121,953 due to additional legal expenditures related to the District's windfarm Chapter 313 agreement.

Special Education Fund

For 2017-18, the Special Education Fund is a major reportable fund. As the fund is a special revenue fund accounting for the Greenbelt Shared Services Arrangement, the fund has no fund balance at the end of the year.

Special Education Fund revenues and expenditures increased \$14,743, which is only a 4% increase.

Other Governmental Funds

Other governmental funds consist of the various special revenue funds. The total ending fund balance for all special revenues combined was \$11,604, a decrease of \$2,464 from the previous year. This fund balance is in the Track Repair Fund.

General Fund Budgetary Highlights

Over the course of the year, the District revised its budget several times. With these adjustments, actual expenditures were \$293,094 below final budget amounts, with the most significant variance in instruction where budgeted expenditures exceeded actual expenditures by \$117,324.

On the other hand, revenues were \$95,090 above the final budgeted amount with no significant variances in budget categories.

As noted, the original budget was amended throughout the year. Most budget line items in the original budget were not materially different than in the final adopted budget. The exceptions were cocurricular/extracurricular activities, general administration, and facilities maintenance and operations. The reason for the increase in budget for cocurricular/extracurricular activities was for additional salary expenditures and the purchase of weight room equipment. The reason for the increase in budget for general administration 313 agreements. The reason for the increase in budget for general administration was due to legal expenditures related to Section 313 agreements. The reason for the increase in budget for the i

Capital Assets

At August 31, 2018, the District had invested in a broad range of capital assets totaling \$8,953,995, net of accumulated depreciation, including land, buildings, and furniture and equipment. See Table 7 below.

Table 7 - Capital Assets, Net

| | 2018 | 2017 | | \$ Change | | % Change |
|----------------------------|-----------------|------|-----------|-----------|-----------|----------|
| Land | \$ 201,390 | \$ | 202,390 | \$ | (1,000) | 0% |
| Buildings and improvements | 7,890,098 | | 8,151,359 | | (261,261) | -3% |
| Furniture and equipment | 792,899 | | 827,445 | | (34,546) | -4% |
| Construction in progress | 69,608 | | | | 69,608 | 100% |
| Totals | \$ 8,953,995 | \$ | 9,181,194 | \$ | (227,199) | -2% |

Capital assets, net of accumulated depreciation, decreased \$227,199 or 2%. Additional information about the District's capital assets is presented in the notes to the financial statements.

Long-term Debt

At August 31, 2018, the District had \$1,899,238 in notes payable outstanding as shown in Table 8 below.

Table 8 - Long-term Debt

| | 2018 | 2017 | \$ Change | % Change |
|---------------|--------------|--------------|--------------|----------|
| Notes payable | \$ 1,899,238 | \$ 2,013,534 | \$ (114,296) | -6% |

Additional information about the District's long-term debt is presented in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The following indicators were taken into account when adopting the 2018-19 budget for the General Fund.

- Appraised value used for the 2018-19 budget preparation is up to \$289,412,280 from \$285,318,180 in the prior year, an increase of 1.41%.
- General Fund spending per student will slightly decrease in the 2018-19 budget compared to the 2017-18 fiscal year.
- The District's 2018-19 refined average daily attendance is expected to decrease as compared to 2017-18.

Revenues in the General Fund are budgeted to decrease 10.7% from the final 2017-18 budget of \$6,862,814. State funding for the 18-19 year will decrease because student enrollment is expected to be less.

Expenditures in some budget categories are different from the previous year, with the total expenditure budget for 2018-19 decreasing 10.6% from the final 2017-18 expenditure budget of \$6,910,426. This is a result of decreased capital outlay costs, reduced travel, less budgeted miscellaneous expense, and decreased supply budgets. Also contracted services have decreased due to no longer contracting a CAN teacher, one less copier contract, less ESC services, drug testing policy changes, and decreased Success Center services.

It is estimated that fund balance in the General Fund will remain the same by August 31, 2019,

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Business Office,

QUANAH INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2018

| Net change in fund balances - total governmental funds (Exhibit C-2) | | | \$ | 316,689 |
|---|----|--------------------|----------|-----------|
| Amounts reported for <i>governmental activities</i> in the Statement of Activities (Exhibit B-1) are different because: | | | | |
| Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets are allocated over their estimated useful lives as depreciation expense. The net difference between the two is as follows: | t | | | |
| Capital outlay during the year Depreciation expense for the year | \$ | 248,417 441,662 | | (193,245) |
| Proceeds from the sale of capital assets are recorded as revenues when received in the governmental funds. In the Statement of Activities, the difference between the proceeds and the book value of the capital asset is reported as a gain (loss) from sale. | | | | (33,954) |
| Because property tax receivables will not be collected for several months after the District's fiscal year ends, they are not considered 'available' revenues and are deferred in the governmental funds. Deferred inflows increased by this amount this year. | | | | 15,454 |
| Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year long-term debt principal payments were: | | | | 114,296 |
| Interest is accrued on long-term debt in the government-wide financial statements, whereas interest is reported when due in the governmental fund financial statements. Accrued interest decreased by: | | | | 3,944 |
| The District participates in a defined benefit pension plan. Contributions to the plan are expenditures at the fund level when payments are due. At the government-wide level, pension expenses are recognized on an actuarial basis. Payments were less than the actuarial expense in the current year. | | | | (61,304) |
| The District participates in an OPEB plan through TRS. Contributions to the plan are expenditures at the fund level when payments are due. At the government-wide level, OPEB expenses are recognized on an actuarial basis. Payments were more than the actuarial expense in the current year. | | | | 903,582 |
| Change in net position of governmental activities (Exhibit B-1) | | | \$ | 1,065,462 |
| | | | <u> </u> | |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

A. Summary of Significant Accounting Policies

The basic financial statements of Quanah Independent School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide (Resource Guide). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees (Board), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (TEA) or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental reporting entity and there are no component units included within the District's reporting entity.

- 2. Basis of Presentation, Basis of Accounting
 - a. Basis of Presentation

Government-wide Financial Statements: The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as investment earnings, result from nonexchange transactions or ancillary activities.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Special Education Fund: This fund is used to account for revenues and expenditures associated with the Special Education Co-op, for which the District is the fiscal agent.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

In addition, the District reports the following fund types:

Governmental Funds:

Special Revenue Funds: The District accounts for activities funded with restricted or committed revenues in special revenue funds. Most federal and some state grant programs are accounted for in these funds, as well as the District's campus activity funds.

Fiduciary Funds:

Private-Purpose Trust Funds: The District accounts for donations for which the donor stipulated that both the principal and income may be used for purposes that benefit parties outside the District.

Agency Funds: The District accounts for resources held for others in a custodial capacity in agency funds.

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

b. Measurement Focus, Basis of Accounting

Government-wide and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

3. Financial Statement Amounts

a. Cash and Cash Equivalents

For purposes of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

b. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period.

Allowances for uncollectible tax receivables within the General Fund is based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

At August 31, 2018, net property taxes receivable is calculated as follows:

| Gross property taxes receivable | \$227,013 |
|-----------------------------------|--------------------|
| Allowance for uncollectible taxes | (<u>113,066</u>) |
| Net property taxes receivable | \$113.947 |

c. Inventories and Prepaid Items

Supplies and materials are recorded as expenditures when requisitioned. Inventory is stated at cost using the first-in, first-out method. Inventory in the General Fund consists of expendable parts and supplies. Inventory in the Other Governmental Funds consists primarily of food service commodities.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

d. Deferred Outflows/Inflows of Resources

Deferred outflows of resources refers to the consumption of net assets that are applicable to a future reporting period. Deferred outflows of resources has a positive effect on net position, similar to assets. Notwithstanding the similarities, Concepts Statement 5 clearly establishes that deferred outflows of resources are not assets.

Deferred inflows of resources refers to the acquisition of net assets that are applicable to a future reporting period. Deferred inflows of resources has a negative effect on net position, similar to liabilities. Notwithstanding the similarities, Concepts Statement 5 clearly establishes that deferred inflows of resources are not liabilities.

e. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are depreciated using the straight line method over the following useful lives:

| Asset Class | Estimated Useful Lives |
|-----------------------|------------------------|
| Buildings | 20-50 years |
| Building improvements | 20-50 years |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

> Vehicles Equipment

5-10 years 5-25 years

f. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables, except for delinquent taxes receivable, which are not scheduled for collection within one year of year end. Of the \$227,013 outstanding at August 31, 2018, it is expected that the District will collect approximately \$50,000 during the upcoming year.

g. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line on the government-wide statement of net position.

h. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates. Accordingly, actual results could differ from those estimates.

i. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to insure accuracy in building a statewide database for policy development and funding plans.

j. Fund Balances - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance - represents amounts that can only be used for a specific purpose because of a formal action (passage of resolution) by the District's Board of Trustees. Committed amounts cannot be used for any other purpose unless the Board of Trustees removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the Board of Trustees. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance - represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Board

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

of Trustees or by an official or body to which the Board of Trustees delegates the authority. Per the fiscal management policies adopted by the Board of Trustees, the Board of Trustees, Superintendent and Chief Financial Officer are authorized to assign amounts for specific purposes. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the General Fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance - represents amounts which are unconstrained in that they may be spent for any purpose. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

k. New Accounting Standard Adopted

In fiscal year 2018, the District adopted GASB Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for post-employment benefits other than pensions (other post-employment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities.

This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans.

The scope of this Statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed.

4. Pension

The fiduciary net position of the TRS has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS' fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

5. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go-plan and all cash is held in a cash account.

B. <u>Compliance and Accountability</u>

1. Finance-Related Legal and Contractual Provisions

The District had no violations of finance-related legal and contractual provisions for the year ended August 31, 2018.

2. Deficit Fund Balance or Fund Net Position of Individual Funds

The District does not have any funds with a deficit fund balance or deficit net position.

C. Deposits and Investments

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

1. Cash Deposits:

At August 31, 2018, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$5,423,804 and the bank balance was \$5,461,441. The District's cash deposits at August 31, 2018, and during the year ended August 31, 2018, were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

2. Investments:

The District is required by Government Code Chapter 2256, The Public Funds Investment Act (Act), to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Act requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

The District's investments at August 31, 2018, are shown below.

| | Weighted | |
|-------------------------------|-------------------|--------------------|
| | Average | |
| Investment or Investment Type | Maturity (Months) | Fair Value |
| Certificates of deposit | 8.67 | \$2,524,530 |
| Texpool | 1.00 | 39,427 |
| Total Investments | | <u>\$2.563.957</u> |

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fail into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgement and considers factors specific to each asset or liability. The District values its certificates of deposit using level 2 inputs and Texpool balances are valued at net asset value per unit/share.

Public Funds Investment Pools

Public funds investment pools in Texas (Pools) are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares. The District participates in Texpool.

TexPool is a local government investment pool organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The State Comptroller of Public Accounts is the sole officer, director, and shareholder of the Texas Treasury Safekeeping Trust Company, which is authorized to operate TexPool. Pursuant to the TexPool Participation Agreement, administrative and investment services to TexPool are provided by Federated Investors, Inc., under an agreement with the Comptroller, acting on behalf of the Trust Company. As required by the Public Funds Investment Act, the Advisory Board is composed equally of participants in TexPool and other persons who do not have a business relationship with TexPool who are qualified to advise TexPool. TexPool is comprised of two investment alternatives: TexPool (which the District is invested in) and TexPool Prime. Both funds seek to maintain a net asset value of \$1.00 per unit and are rated AAAm by Standard and Poor's.

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Investment Accounting Policy

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a costbased measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate charges. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

D. Interfund Balances and Activities

1. Due To and From Other Funds

| Due To Fund | Due From Fund | Amount | Purpose |
|--------------|--------------------------|------------------|-----------------|
| General Fund | Other Governmental Funds | <u>\$ 65,001</u> | Short-term loan |

This balance is scheduled to be repaid within one year.

2. Transfers To and From Other Funds

Balances transferred to and from other funds during the year ended August 31, 2018, consisted of the following:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

| Transfer Out Fund | Transfer In Fund | Amount | Purpose |
|-------------------|--------------------------|------------------|------------------------|
| General Fund | Other Governmental Funds | <u>\$ 21,420</u> | Supplement other funds |

E. Capital Assets

Capital asset activity for the year ended August 31, 2018 was as follows:

| | Beginning Balances | Increases | Decreases | Ending Balance |
|---|-----------------------|--------------------|------------------|---------------------|
| Governmental activities: | | | | |
| Capital assets not being depreciated: | | | | |
| Land | \$ 202,390 | \$ - | \$ 1,000 | \$ 201,390 |
| Construction in progress | | 69,608 | | 69,608 |
| Total capital assets not being depreciated | 202,390 | 69,608 | 1,000 | 270,998 |
| Capital assets being depreciated: | | | | |
| Buildings and improvements | 11,149,644 | 15,984 | :#1 | 11,165,628 |
| Furniture and equipment | 2,111,851 | 162,825 | 41,315 | 2,233,360 |
| Total capital assets being depreciated | 13,261,495 | 178,809 | 41,315 | 13,398,988 |
| Less accumulated depreciation for: | | | | |
| Buildings and improvements | 2,998,285 | 277,244 | | 3,275,529 |
| Furniture and equipment | 1,284,406 | 164,417 | 8,361 | 1,440,462 |
| Total accumulated depreciation | 4,282,691 | 441,661 | <u> </u> | 4,715,991 |
| Total capital assets being depreciated, net | 8,978,804 | (262,852) | 32,954 | 8,682,997 |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

F. Long-term Obligations

1. Long-Term Obligation Activity

Long-term obligations include debt and other long-term liabilities. Changes in long-term obligations for the year ended August 31, 2018, are as follows:

| | Beginning | | | Ending | Amounts Due Within |
|--------------------------|---------------------|-----------|-------------------|---------------------|-----------------------|
| | Balance | Increases | Decreases | Balance | One Year |
| Governmental Activities: | | | | | |
| Notes Payable | <u>\$ 2,013 534</u> | <u>\$</u> | <u>\$ 114,296</u> | <u>\$ 1,899,238</u> | <u>\$ 118,239</u> |

2. Debt Service Requirements

Debt service requirements on long-term debt at August 31, 2018, are as follows:

| | Governmental Activities | | | |
|------------------------|-------------------------|------------------|--------------------|--|
| Year Ending August 31, | Principal | Interest | Total | |
| 2019 | \$ 118,239 | \$ 65,524 | \$ 183,763 | |
| 2020 | 122,318 | 61,445 | 183,763 | |
| 2021 | 126,539 | 57,224 | 183,763 | |
| 2022 | 130,904 | 52,859 | 183,763 | |
| 2023 | 135,420 | 48,343 | 183,763 | |
| 2024-2028 | 750,489 | 168,325 | 918,814 | |
| 2029-2031 | <u> </u> | 35,960 | <u> </u> | |
| Totals | <u>\$1,899,238</u> | <u>\$489,680</u> | <u>\$2,388,918</u> | |

3. Notes Payable

The notes payable were issued in September 2015 for the purpose of constructing new District facilities in conjunction with a FEMA Safe Rooms grant. The notes issued financed the matching portion of the grant as well as additional construction beyond the scope of the safe rooms. Both notes carry an interest rate of 3.45% and are payable over 15 years with combined annual principal and interest installments of \$183,763 and final maturity on September 1, 2030.

G. Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2018, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

H. Defined Benefit Pension Plan

1. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

2. Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separatelyissued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, Texas 78701-2698; or by calling (512) 542-6592.

3. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using a 2.3 percent multiplier times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on the date of employment, of if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan Description above.

4. Contributions

Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution, which requires the Texas Legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements if, as a result of a particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2017 and 2018.

Contribution rates for the Plan fiscal years (September through August) 2017 and 2018 follow:

| | Contribution Rates for Plan Fiscal Year: | |
|--|---|------|
| | 2017 | 2018 |
| Members (Employees) | 7.7% | 7.7% |
| Non-Employer Contributing Entity (State) | 6.8% | 6.8% |
| Employer (District) | 6.8% | 6.8% |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

Contributions for the Plan fiscal year 2017 follow:

| Members (Employees) | \$ 334,732 |
|--|------------|
| Non-Employer Contributing Entity (State) | \$ 216,204 |
| Employer (District) | \$ 135,447 |

Contributors to the Plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies including TRS. In each respective role, the State contributes to the Plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- --- During a new member's first 90 days of employment.
- --- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- --- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.
- 5. Actuarial Assumptions

The total pension liability in the August 31, 2017, actuarial valuation was determined using the following actuarial assumptions:

| Valuation Date | August 31, 2017 |
|--|-----------------------------|
| Actuarial Cost Method | Individual Entry Age Normal |
| Asset Valuation Method | Market Value |
| Single Discount Rate | 8.00% |
| Long-term Expected Investment Rate of Return | 8.00% |
| Inflation | 2.50% |
| Salary Increases Including Inflation | 3.50% to 9.50% |
| Payroll Growth Rate | 2.50% |
| | |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

Benefit Changes During the YearNAd hoc post-employment benefit changesN

None None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014, and adopted on September 24, 2015.

6. Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2017, are summarized as follows:

| | | Long-term | Expected |
|-------------------------------|-------------|-----------|--------------|
| | | Expected | Contribution |
| | | Geometric | to Long-term |
| | Target | Real Rate | Portfolio |
| Asset Class | Allocation | of Return | Returns * |
| Global Equity | | | |
| U.S. | 18% | 4.6% | 1.0% |
| Non-U.S. Developed | 13% | 5.1% | 0.8% |
| Emerging Markets | 9% | 5.9% | 0.7% |
| Directional Hedge Funds | 4% | 3.2% | 0.1% |
| Private Equity | 13% | 7.0% | 1.1% |
| Stable Value | | | |
| U.S. Treasuries | 11% | 0.7% | 0.1% |
| Absolute Return | 0% | 1.8% | 0.0% |
| Stable Value Hedge Funds | 4% | 3.0% | 0.1% |
| Cash | 1% | -0.2% | 0.0% |
| Real Return | | | |
| Global Inflation Linked Bonds | 3% | 0.9% | 0.0% |
| Real Assets | 16% | 5.1% | 1.1% |
| Energy and Natural Resources | 3% | 6.6% | 0.2% |
| Commodities | 0% | 1.2% | 0.0% |
| Risk Parity | | | |
| Risk Parity | 5% | 6.7% | 0.3% |
| Inflation Expectation | 0% | 0% | 2.2% |
| Alpha | 0% | _0% | |
| Total | <u>100%</u> | | 8.7% |

* -The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability of the plan if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the Net Pension Liability.

| | | Current | |
|---------------------------------------|-------------|-------------|-----------|
| | 1% | Discount | 1% |
| | Decrease | Rate | Increase |
| | 7% | 8% | 9% |
| District's proportionate share of the | S | | |
| net pension liability | \$2,223,493 | \$1,318,978 | \$565,775 |

8. Pension Liabilities, Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

At August 31, 2018, the District reported a liability of \$1,318,978 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for the State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the collective net pension liability | \$1,318,978 |
|--|-------------|
| State's proportionate share that is associated with the District | 2,113,730 |
| Total | \$3,432,708 |

The net pension liability was measured as of August 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2016, through August 31, 2017.

At August 31, 2017, the District's proportion of the collective net pension liability was 0.0041251%, which was an increase of .0003703% from its proportion measured as of August 31, 2016.

Changes Since the Prior Actuarial Valuation

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2018, the District recognized pension expense of \$161,227 and revenue of \$216,204 for support provided by the State.

At August 31, 2018, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

| | Deferred Outflows | Deferred Inflows |
|---|----------------------|---------------------|
| Differences between expected and actual economic experience | \$ 19,297 | \$ 71,131 |
| Changes in actuarial assumptions | 60,082 | 34,395 |
| Net difference between projected and actual earnings on pension plan investments | 202,843 | 298,968 |
| Changes in proportion and difference between the District's contributions and the proportionate share of contributions | 319,870 | 41,099 |
| District contributions subsequent to the measurement date | 135,447 | <u> </u> |
| Total | <u>\$ 737,539</u> | <u>\$ 445,593</u> |

The net amounts of the District's balances of deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ended | Pension Exp. | | |
|------------|--------------|--|--|
| August 31 | Amount | | |
| 2019 | \$ 21,191 | | |
| 2020 | 105,385 | | |
| 2021 | 14,723 | | |
| 2022 | (10,495) | | |
| 2023 | 12,600 | | |
| Thereafter | 13,095 | | |
| | | | |

Defined Other Post-Employment Benefit Plans

1. Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the TRS Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

2. OPEB Plan Fiduciary Net Position

Detailed information about the TRS-Care's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, Texas 78701-2698; or by calling (512) 542-6592.

3. Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for the average retiree with Medicare Parts A&B coverage, with 20 to 29 years of service for the basic plan and the two optional plans.

| | TRS-Care Plan Premiur | n Rates | |
|-------------------------|------------------------------|-----------------|----------------------|
| Effective | September 1, 2016 - De | cember 31, 2017 | |
| | TRS-Care 1 | TRS-Care 2 | TRS-Care 3 |
| | Basic Plan | Optional Plan | <u>Optional Plan</u> |
| Retiree * | \$ O | \$ 70 | \$100 |
| Retiree and Spouse | 20 | 175 | 255 |
| Retiree * and Children | 41 | 132 | 182 |
| Retiree and Family | 61 | 237 | 337 |
| Surviving Children only | 28 | 62 | 82 |

* or surviving spouse

4. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a payas-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, Section 1575.202 establishes the state's contribution rate which is 1.0% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than .25% or not more than .75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

Contribution Rates

| | 2017 | 2018 |
|---|----------|-------|
| Active Employee | 0.65% | 0.65% |
| Non-Employer Contributing Entity (State) | 1.00% | 1.25% |
| Employers (District) | 0.55% | 0.75% |
| Federal/private funding remitted by Employers | 1.00% | 1.25% |
| 2017 Employer Contributions | \$30,772 | |
| 2017 Member Contributions | \$12,621 | |
| 2017 NECE On-behalf Contributions | \$35,911 | |

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$15.6 million in fiscal year 2017 and \$182.6 million in fiscal year 2018.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

5. Actuarial Assumptions

The actuarial valuation of TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including mortality, and most of the economic assumptions are identical to those which were adopted by the Board in 2015 and are based on the 2014 actuarial experience study of TRS.

The active mortality rates were based on 90% of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates were based on the 2015 TRS of Texas Healthy Pensioner Mortality Tables.

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2017 TRS pension actuarial valuation:

| Rates of Mortality | General Inflation |
|-------------------------------|-------------------------|
| Rates of Retirement | Wage Inflation |
| Rates of Termination | Expected Payroll Growth |
| Rates of Disability Incidence | |

Additional Actuarial Methods and Assumptions:

| Valuation Date | August 31, 2017 |
|--|---|
| Actuarial Cost Method | Individual Entry Age Normal |
| Inflation | 2.50% |
| Discount Rate | 3.42% |
| Aging Factors | Based on plan specific experience |
| Expenses | Third-party administrative expenses related to |
| | the delivery of health care benefits are included |
| | in the age-adjusted claims costs. |
| Payroll Growth Rate | 2.50% |
| Projected Salary Increases | 3.50% to 9.50% |
| Healthcare Trend Rates | 4.50% to 12.00% |
| Election Rates | Normal Retirement: 70% participation prior to |
| | age 65 and 75% participation after age 65 |
| Ad hoc post-employment benefit changes | None |

Other Information:

There was a significant plan change adopted in fiscal year ending August 31, 2017. Effective January 1, 2018, only one health plan option will be offered and all retirees will be required to contribute monthly premiums for coverage. Assumption changes made for the August 31, 2017 valuation include a change to the assumption regarding the phase-out of the Medicare Part D subsidies and a change to the discount rate from 2.98% as of August 31, 2017.

6. Discount Rate

A single discount rate of 3.42% was used to measure the total OPEB liability. There was a change of .44% in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability. The source of the municipal bond rate was fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of August 31, 2017.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.42%) in measuring the net OPEB liability.

| | Current | | |
|---------------------------------------|--------------------|--------------------|--------------------|
| | 1% | Discount | 1% |
| | Decrease | Rate | Increase |
| | 2.42% | 3.42% | 4.42% |
| District's proportionate share of the | | | |
| net OPEB liability | <u>\$3,037,807</u> | <u>\$2,573,872</u> | <u>\$2,200,971</u> |

The following schedule presents the net OPEB liability of the plan using the assumed healthcare cost trend rate as well as what the net OPEB liability would be if it were calculated using a trend ratio that is 1% less than and 1% greater than the assumed healthcare cost trend rate:

| | | Current | |
|---------------------------------------|--------------------|--------------------|--------------------|
| | 1% | Discount | 1% |
| | Decrease | Rate | Increase |
| | 2.42% | 3.42% | 4.42% |
| District's proportionate share of the | | | |
| current healthcare cost trend rate | <u>\$2,143,005</u> | <u>\$2,573,872</u> | <u>\$3,139,223</u> |

8. OPEB Liabilities, OPEB Expense, and Deferred Outflows and Inflows of Resources Related to OPEBs

At August 31, 2018, the District reported a liability of \$2,573,872 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for the State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

| District's proportionate share of the collective net OPEB liability | \$2,573,872 |
|---|---------------------|
| State's proportionate share that is associated with the District | 3,003,689 |
| Total | \$ <u>5,577,561</u> |

The net OPEB liability was measured as of August 31, 2017 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2016 through August 31, 2017.

At August 31, 2017, the District's proportion of the collective net OPEB liability was 0.0059188178%, which was the same proportion measured as of August 31, 2016.

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

-- Significant plan changes were adopted during fiscal year ending August 31, 2017. Effective January 1, 2018, only one health plan option will exist (instead of three), and all retirees will be required to contribute monthly premiums for coverage. The health plan changes triggered changes to several of the assumptions, including participation rates, retirement rates, and spousal participation rates.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

- The August 31, 2016 valuation had assumed that the savings related to the Medicare Part D reimbursements would phase out by 2022. This assumption was removed for the August 31, 2017 valuation. Although there is uncertainty regarding these federal subsidies, the new assumption better reflects the current substantive plan. This change was unrelated to the plan amendment, and its impact was included as an assumption change in the reconciliation of the total OPEB liability. This change significantly lowered the OPEB liability.
- -- The discount rate changed from 2.98% as of August 31, 2016 to 3.42% as of August 31, 2017. This change lowered the total OPEB liability.

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

For the year ended August 31, 2018, the District recognized OPEB expense of \$1,005,114 and revenue of \$35,911 for support provided by the State.

At August 31, 2018, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

| | Deferred Outflows | Deferred Inflows |
|---|----------------------|--|
| Differences between expected and actual economic experience | \$- | \$ 53,732 |
| Changes in actuarial assumptions | | 1,022,924 |
| Difference between projected and actual investment earnings | 391 | in the second se |
| Changes in proportion and difference between District contributions and proportionate share of contributions | 11 | - |
| Contributions paid to TRS subsequent to the measurement date | 40,722 | <u> </u> |
| Total | <u>\$41,124</u> | <u>\$1,076,656</u> |

The net amounts of the District's balances of deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Plan | |
|------------|-----------|
| Year Ended | OPEB Exp. |
| August 31 | Amount |
| 2019 | \$142,012 |
| 2020 | 142,012 |
| 2021 | 142,012 |
| 2022 | 142,012 |
| 2023 | 142,110 |
| Thereafter | 366,094 |

J. Commitments and Contingencies

1. Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

2. Litigation

No reportable litigation was pending against the District as of August 31, 2018.

K. Worker's Compensation Coverage

Starting September 1, 2012, the District joined the Deep East Texas Self Insurance Fund (DETSIF) for worker's compensation coverage with the DETSIF Risk Management Fund. The associated costs are accounted for directly to all funds. The DETSIF is a modified, self-funded pool organized by DETSIF in accordance with the Interlocal Cooperation Act (Chapter 701, Title 7, Government Code). With this plan the District is now fully insured and DETSIF pays for all claims.

Prior to September 1, 2012, the District had participated in a self-insurance plan for worker's compensation benefits as authorized by Section 504.011 of the Labor Code. Hibbs-Hallmark & Company / Claims Administrative Services is the third party administrator of the plan.

Under the self-insured Claims Administrative Plan, the District accounted for worker's compensation claims in the Internal Service Fund. The charges to the other funds were based on rates determined by the District and were to be adjusted over time so that the Internal Service Fund revenues and expenses would be approximately equal.

Although the District has terminated its agreement with Claims Administrative Services to provide ongoing workers compensation coverage, the District continues to be liable for any unpaid claims from prior years. These estimated liabilities are now reported in the General Fund.

Claims are paid by the third party administrator acting on behalf of the District under the terms of the contractual agreement. Administrative fees are included within the provisions of that agreement. According to the state statute, the District is protected against unanticipated claims and aggregate loss by coverage carried through Safety National Casualty Company, a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code. Coverage was in effect for specific occurrences exceeding \$300,000. The Pool participants are responsible for amounts up to the limit.

As of August 31, 2018, the worker's compensation benefit obligation consisted of \$13,572 in reported unpaid claims and estimated incurred but not reported claims. These amounts represent estimated ultimate costs to settle claims. This liability is recorded in the General Fund. A summary of the changes in the benefit obligation is as follows:

| \$14,457 |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

L. Shared Services Arrangements

Shared Services Arrangement - Fiscal Agent

The District is the fiscal agent for a Shared Services Arrangement (SSA) which provides special education services to the member districts listed below. All services are provided by the fiscal agent. The member districts provide the funds to the fiscal agent. According to guidance provided in TEA's Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in a special revenue fund and will be accounted for using Model 3 in the SSA section of the Resource Guide. Expenditures of the SSA are summarized below:

| | Special |
|------------------|-------------------|
| | Education |
| Member Districts | Expenditures |
| Childress ISD | \$ 157,544 |
| Chillicothe ISD | 30,920 |
| Crowell ISD | 54,477 |
| Memphis ISD | 98,650 |
| Quanah ISD | <u> </u> |
| Total | <u>\$ 426,989</u> |

M. Tax Abatement Agreements

The District's Board of Trustees approved an agreement with WIT Ranch Wind Farm, LLC for a limitation on appraised value of property for school district maintenance and operations taxes pursuant to Chapter 313 of the Texas Tax Code, as amended, i.e., the Texas Economic Development Act, as set forth in Chapter 313 of the Texas Tax Code, as amended. The Agreement Holder qualified for a tax limitation agreement under Texas Tax Code § 313.024(b)(5), as a renewable energy electric generation project.

For the year ended August 31, 2018, the value limitation agreements had the following effect on the District's tax collections when calculated with the current fiscal year maintenance and operations tax rate of \$1.04 per \$100.

| | | | | Project | | | | | Re | venue | | |
|---------------------|-----------|----|--------|------------|------|------|---------|-----|-------------|-------------|---------|-----------|
| | | | | Value | | 0&N | M | 80 | L | .055 | Sup | plemental |
| | Agreement | P | roject | Limitation | т | axes | Та | xes | Payment | yment | Payment | |
| Company | Year | - | Value | Amount | Paid | | Reduced | | to District | to District | | |
| WIT Ranch Farm, LLC | 1 | \$ | 141 | N/A | \$ | | S | | \$ | - | \$ | 53,655 |

In the event that an entity terminates this agreement without the consent of the District, or in the event that the company or its successor-in-interest fails to comply in any material respect with the terms of the agreement, the District shall be entitled to the recapture of all ad valorem tax revenue lost as a result of this Agreement together with the payment of penalty and interest, on that recaptured ad valorem tax revenue. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code §33.01(a), or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code §33.01(a), or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code §33.01(a), or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code §33.01(a), or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code §33.01(a), or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code §33.01(a), or its successor statute. The agreement provides an administrative procedure to determine any company liability. Ultimately, enforcement of any payment obligation is through the local state district court.

N. Prior Period Adjustment

For fiscal year ended August 31, 2018, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 75. As a result, a prior period adjustment to the beginning net position for governmental activities for applicable post-employment benefits other than pensions (OPEB) is required. The adjustment is as follows:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2018

| \$10,784,178 |
|--------------------|
| 31,055 |
| (_4,544,041) |
| |
| <u>\$6,271,192</u> |
| |

O. Statement of Activities Negative Operating Grants

With the implementation of GASB 75, the District is required to report on-behalf contributions at the government-wide level for their proportion of the change in OPEB liability and deferred balances recognized by the State of Texas onbehalf of the District. As described in Note I, the current year OPEB expense recognized by the State of Texas was a negative \$1,005,114 and the actual on-behalf payments were \$35,911. Therefore, \$1,041,025 in negative operating grants and contributions is recognized at the government-wide level. As a result of this negative amount, the Statement of Activities reflects overall operating grants and contributions of \$808,044. Had this adjustment not been required, the Statement of Activities would have shown \$1,849,070 in program revenue for operating grants and contributions for the year ended August 31, 2018. **REQUIRED SUPPLEMENTARY INFORMATION**

Note - the contractually required contribution is for the District's indicated fiscal year,

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED AUGUST 31, 2018

A. Budget

1. Basis of Budgeting

The Quanah Independent School District's (District) budget for the General Fund is prepared and presented on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

2. Budget Process

a. Budgeting

Annual budgets are legally adopted for the General Fund and Food Service Fund. The annual budget is presented in the accompanying schedule for the General Fund. The following procedures are used in establishing the budgetary data reflected in that schedule:

- Prior to August 20th of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1st. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board of Trustees is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
- 3. Prior to September 1st, the budget is legally enacted through passage of a resolution by the Board of Trustees.

The budget is prepared and controlled by the budget officer at the revenue object and expenditure function level.

The official budget for the General Fund was prepared and adopted through Board resolution before August 31, 2017. The administration performs budget reviews by which budget requirements are re-evaluated and revisions recommended to the Board. The Board may approve amendments to the budget, which are required when a change is made to the functional expenditure categories or revenue object accounts, as defined by the Texas Education Agency. Total expenditures may exceed total appropriations, as amended, by fund as long as those expenditures are certified as being available by the budget officer to the Board. The budget amounts reflected in the accompanying schedule represent final amended budget amounts as approved by the Board.

b. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments are recorded in order to reserve that portion of the applicable appropriation, is used in all governmental funds. There are no outstanding encumbrances at year-end as all encumbrances at that date are canceled and re-appropriated in the subsequent fiscal year's budget to provide for their liquidation.

B. Defined Benefit Pension Plan

1. Change of Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED AUGUST 31, 2018

2. Changes of Assumptions

There were no changes of assumptions that affected measurement of the total pension liability during the measurement period.

C. OPEB Plan

1. Change of Benefit Terms

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

2. Changes of Assumptions

The following assumptions and other inputs which are specific to TRS-Care were updated from the prior year's report:

- a. Significant plan changes were adopted during fiscal year ending August 31, 2017. Effective January 1, 2018, only one health plan option will exist (instead of three), and all retirees will be required to contribute monthly premiums for coverage. The health plan changes triggered changes to several of the assumptions, including participation rates, retirement rates, and spousal participation rates.
- b. The August 31, 2016 valuation had assumed that the savings related to the Medicare Part D reimbursements would phase out by 2022. This assumption was removed for the August 31, 2017 valuation. Although there is uncertainty regarding these federal subsidies, the new assumption better reflects the current substantive plan. This change was unrelated to the plan amendment, and its impact was included as an assumption change in the reconciliation of the total OPEB liability. This change significantly lowered the OPEB liability.
- c. The discount rate changed from 2.98% as of August 31, 2016 to 3.42% as of August 31, 2017. This change lowered the total OPEB liability.

In this valuation, the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- = 2018 thresholds of \$850/\$2,292 were indexed annually by 2.50%.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- -- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance with *Government Auditing Standards*

Board of Trustees Quanah Independent School District P.O. Box 150 Quanah, Texas 79252

Members of the Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Quanah Independent School District (District) as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 3, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Edgin, Parkenan, Flening . Flening, PC

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

Board of Trustees Quanah Independent School District P.O. Box 150 Quanah, Texas 79252

Members of the Board of Trustees:

Report on Compliance for Each Major Federal Program

We have audited Quanah Independent School District's (District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on its major federal programs for the year ended August 31, 2018. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal programs. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Quanah Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended August 31, 2018.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal programs to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for the major programs and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that a material weakness in internal control over compliance with a type of compliance is a deficiency or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses. However, material weaknesses may exist that may not have been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

The accompanying notes are an integral part of this schedule.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED AUGUST 31, 2018

A. Basis of Presentation

The accompanying schedule of expenditures of federal awards (SEFA) includes the federal grant activity of Quanah Independent School District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the Uniform Guidance. Therefore, some amounts presented in this schedule may differ from the amounts presented in, or used in the preparation of, the basic financial statements.

B. De Minimis Indirect Cost Rate

Entities that receive federal awards for which an indirect cost rate has never been negotiated may elect to charge a de minimis indirect cost rate of ten percent of modified total direct costs. The District did not elect to charge the de minimis rate to any of its federal awards during the year ended August 31, 2018.

C. Reconciliation of Federal Expenditures per the SEFA to the Basic Financial Statements

| Amount of federal revenues per Exhibit C-2 \$1,608,74 IDEA-B Formula monies distributed from the SSA to the District | 46 |
