

MMR Improvement Plan. Data was released last month for two critical measures of student academic performance for the 2015-16 school year.

- a. One year's worth of growth (positive z score), as measured by NWEA and MCA testing was attained by 7 of 16 (44%) of the grade levels/subject areas tested (attached).
- b. The MMR (Multiple Measurement Rating) for Minnesota Schools was released on September 1st. The components include proficiency, student growth, achievement gap reduction, and graduation rate. Becker's ranking in comparison to other schools in the state is attached.
- c. It is imperative that we act swiftly and boldly to change our system so students can attain more academic progress in the areas of English and mathematics. This is our responsibility and obligation as a school district. Accordingly, I have enacted an MMR Improvement Plan (attached). **School board action is recommended on the following:**
 - i. **Approve an Assistant Principal Position at the Intermediate School.**
 - ii. **Approve a Reading Coach Position.**
