

Intruder Detection Audit Report Findings Notification to the SISD School Board

The top priority of Smithville ISD (SISD) is keeping our students, staff and faculty safe every day. The Texas School Safety Center (TXSSC) recently conducted an Intruder Detection Audit at one of our campuses in September 2023. This audit provided SISD an opportunity to create a safer learning environment for our students, staff and faculty.

As a result of the audit and the audit findings, we are working closely with the campus and the Smithville ISD Safety and Security Committee to ensure we complete the required actions and remain in good standing with the TXSSC/TEA.

Smithville ISD is committed to providing a safe and secure learning environment for our students and staff each and every day. Moreover, SISD understands that providing a safe and secure learning environment is an important and constant task.

If there are any specific questions regarding the Intruder Detection Audit please contact Michael Caudill, Ed.D. at 512-237-2487.
