

## FIS School Board Report October 14, 2024

### **STAR testing**

Students took their first round of STAR testing in September for both reading and math. Our data team has been going through those initial reports and coming up with plans to support our students. Students at FIS will be taking the STAR test twice a trimester this school year.

### **Start of the school year**

We have had a good start to the school year at FIS. Students and staff are settling in nicely to our building routines and there is a positive vibe in the building. We look forward to continuing this positive momentum this school year!

### **Fall activities**

It has been great to see our students compete on the courts, fields and pool this fall. We are fortunate to have extra curricular activity opportunities for our students to participate in and share their talents outside of the classroom.

### **Homecoming**

We had an excellent homecoming week at FIS this year. Students were actively engaged in our dress up days and student behavior was good. The week ended with a school wide pep fest on Thursday that was exceptionally energetic.
