Issue Summary:

Annette Island School District has 7 Sharp printer/copiers on contract with Kelley Create and in active use. Four of these copiers were purchase in 2020. The typical life span of this type of equipment is 4-6 years, then printers begin to fail and parts become obsolete. There is an average of 760k prints on the four copiers and are breaking down constantly. There is another copier, purchased in 2023 that has been failing more frequently that also needs to be replaced. The purchase of these copiers would be from the Major Maintenance Fund 501.

Recommendation:

Administration recommends the approval of the attached Kelley Create Proposal of purchasing five (5) new Sharp printer/copiers.
