PRELIMINARY DRAFT FOR REVIEW AND DISCUSSION --SUBJECT TO CHANGE— NOT TO BE REPRODUCED

Independent Auditor's Report

To the Board of Education Oak Park Elementary School District 97 Oak Park, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Oak Park Elementary School District 97 (the District) as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Oak Park Elementary School District 97 as of June 30, 2010, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated _______, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be considered in assessing the results of our audit.

The required supplementary information which includes the management's discussion and analysis (pages 3-13), schedules of funding progress (pages 41-42), and budgetary schedules and related note (pages 43-45) are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and we express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of Oak Park Elementary School District 97. The combining and individual fund financial statements and other schedules listed in the table of contents as supplementary data are presented for purposes of additional analysis, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Chicago, Illinois Report Date

Required Supplementary Information

Management's Discussion and Analysis (MD&A)

Management's Discussion and Analysis For the Year Ended June 30, 2010

The discussion and analysis of Oak Park Elementary School District 97's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2010. The management of the District encourages readers to consider the information presented herein in conjunction with the financial statements to enhance their understanding of the District's financial performance. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the fiscal year by \$53.2 million. Of this amount, \$24.4 million may be used to meet the District's ongoing obligations to citizens and creditors.
- In total, net assets increased by \$0.5 million. This represents a 0.9% increase from 2009.
- General revenues were \$63.0 million or 77.1% of all revenues. Program specific revenues, in the form of charges for services and grants, were \$18.7 million or 22.9% of total revenues of \$81.7 million.

Overview of the Financial Statements

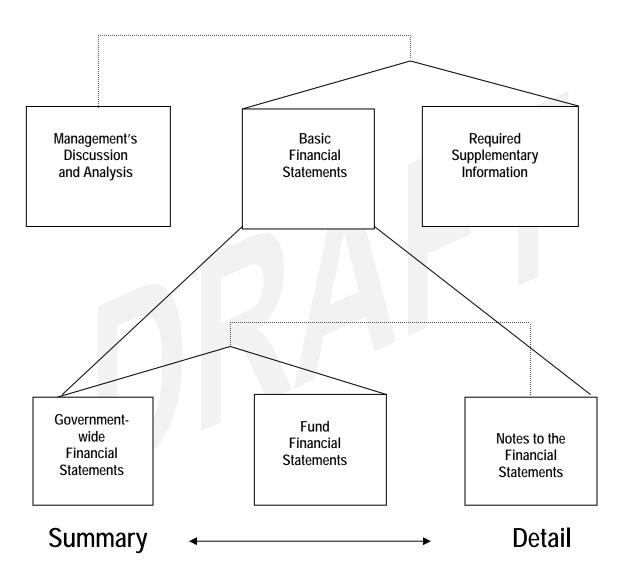

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements.
- Fund financial statements.
- Notes to the financial statements.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

Management's Discussion and Analysis For the Year Ended June 30, 2010

Figure A-1 Organization of Oak Park Elementary School District 97 Annual Financial Report

This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

Management's Discussion and Analysis For the Year Ended June 30, 2010

The statement of net assets presents information on all District assets and liabilities with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the fiscal year being reported. All changes in net assets are reported when revenues are earned and expenses are incurred.

The government-wide financial statements present the District functions that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, community services and non-programmed charges.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the District funds can be divided into two categories: governmental funds and fiduciary funds (the District maintains no proprietary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund statement of net assets and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Management's Discussion and Analysis For the Year Ended June 30, 2010

The District maintains seven individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances of the General Fund, Working Cash Fund and the Debt Service Fund, all of which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its non-certified employees.

Management's Discussion and Analysis For the Year Ended June 30, 2010

Government-Wide Financial Analysis

Net assets. The District's net assets increased by 0.9% compared to the prior year. At year-end, total net assets were \$53.2 million (see Table 1).

The District's financial position is the product of many factors. However, several events of the last year stand out:

- Current assets decreased approximately \$2.3 million due largely to a decrease in property tax receivables.
- Current liabilities also decreased approximately \$1.8 million due largely to a decrease in deferred revenue, related to the sales-leaseback that occurred in the prior year.
- The District paid down approximately \$4.8 million and issued approximately \$2.9 million in general obligation debt in the current year.

PRELIMINARY DRAFT FOR REVIEW AND DISCUSSION --SUBJECT TO CHANGE— NOT TO BE REPRODUCED

Management's Discussion and Analysis For the Year Ended June 30, 2010

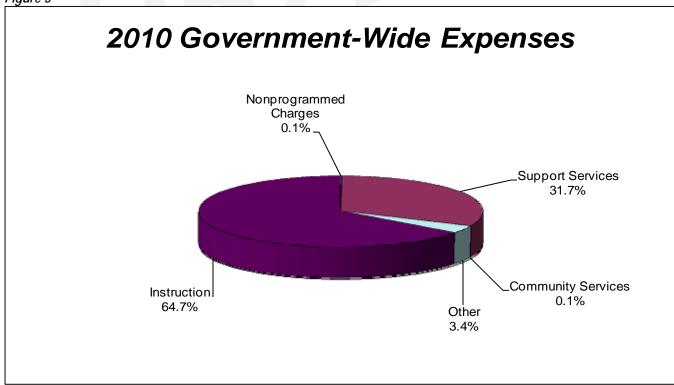

Table 2 Changes in Net Assets <i>(in millions of dollars)</i>		Changes in net assets . The District's total revenues were \$81.8 million. Taxes and general state aid were 73.6% of the total or \$60.2 million. Real estate taxes increased by 8% over the prior year for a total increase
	2010 2009 \$1.5 \$1.4 17.3 15.7 51.9 48.5 8.3 5.2 2.8 1.5 81.8 72.3 52.8 45.8 25.6 24.7 0.1 0.1	 increased by 8% over the prior year for a total increase of \$3.7 million. This increase is due to an increase in the property tax levy. State and federal aid for specific programs brought in an additional \$17.3 million of the total revenues, which is an increase over the prior year, due to an increased amount of State aid received. The remaining \$4.3 million came from fees charged for services and other miscellaneous sources. The total cost of all programs and services was \$81.3 million. The District's expenses are predominantly related to instruction and support services (caring for and transportation of students, etc.) These expenses accounted for 96.4% of the total (see Figure 3). The District's other activities were 3.6% of total costs. The overall increase in expenditures from the prior year is due to increased costs of instruction in regular programs and an increase in State retirement contributions.
Non-programmed Charges Other Total expenses Change in net assets Net Assets – Beginning Net Assets – Ending	$\begin{array}{c cccc} 0.1 & 0.0 \\ \underline{2.7} & \underline{2.9} \\ \underline{81.3} & 73.5 \\ 0.5 & (1.2) \\ \underline{52.7} & 53.9 \\ \underline{\$53.2} & \underline{\$52.7} \end{array}$	assets by \$0.5 million over last year.

Management's Discussion and Analysis For the Year Ended June 30, 2010

Figure 2

Management's Discussion and Analysis For the Year Ended June 30, 2010

Financial Analysis of The District's Funds

As the District completed the year, its governmental funds reported combined fund balances of \$25.9 million. Revenues for the District's governmental activities were \$79.4 million, while total expenditures were \$84.2 million.

The General Fund experienced a current year deficit of \$1.0 million. This deficit resulted in a year-end fund balance of \$12.3 million. The deficit is mainly attributed to an decrease in revenues from the State of Illinois.

The fund balance in the Working Cash Fund decreased minimally, resulting in a year-end fund balance of \$6.1 million.

The Debt Service Fund increased its fund balance by \$0.4 million. The entire year-end fund balance of \$4.8 million is reserved for principal and interest payments on outstanding debt.

The Other Governmental Funds fund balances decreased by \$1.2 million over the prior year. This decrease can be mainly attributed to the District performing more life safety work during 2010.

General Fund Budgetary Highlights

While the District's budget for the General Fund anticipated that expenditures would exceed revenues by \$2.3 million before other financing sources, the actual result for the year was a \$4.0 million deficit. The deficit can be attributed to revenues from state sources coming in well below budgeted amounts.

Management's Discussion and Analysis For the Year Ended June 30, 2010

Capital Asset and Debt Administration

Capital Assets

By the end of 2010, the District had invested \$95.7 million (before accumulated depreciation of \$36.6 million) in a broad range of capital assets, including buildings (both school and administration facilities) equipment (computer, audio-visual, transportation and maintenance equipment and furniture), and land. (See Table 3.) (More detailed information about capital assets can be found in Note 3 to the financial statements.)

Depreciation expense for the year was \$2.6 million, and additions to building improvements and equipment and furniture amounted to \$1.6 million (including a transfer from construction in process of \$0.2 million).

<i>Table 3 Capital Assets (net of depreciation) (in millions of dollars)</i>			
			Total
			Percentage
	2010	2009	Change
Land	\$ 3.1	\$ 3.1	0.0%
Contruction in process	-	0.2	80.0%
Depreciable land improvements and buildings	54.6	55.9	-2.3%
Equipment	 1.3	1.0	30.0%
TOTAL	\$ 59.0	\$ 60.2	

Management's Discussion and Analysis For the Year Ended June 30, 2010

Long–Term Debt

At year-end, the District had \$32.0 million in general obligation bonds and other long-term obligations outstanding, as shown in Table 4. (More detailed information about the District's long-term liabilities is presented in Note 5 to the financial statements.)

<i>Table 4 Outstanding Long-Term Obligations (in millions of</i>	dollars,)		Total Percentage
		2010	2009	Change
General obligation bonds Capital lease obligations Postemployment benefits Compensated absences	\$	30.1 \$ 0.2 1.5 0.3	32.0 0.3 0.7 0.4	-5.9% -33.3% 100.0% -25.0%
TOTAL	\$	32.1 \$	33.4	-

- The District continued to pay down its debt, retiring \$4.8 million of outstanding bonds.
- The District issued approximately \$2.9 million in new bonds.
- The state limits the amount of general obligation debt the District can issue to 6.9% of the assessed value of all taxable property within the District's limits. Outstanding debt is significantly below the current limit of \$120.1 million.

Management's Discussion and Analysis For the Year Ended June 30, 2010

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect it financial health in the future.

- The Illinois General Assembly has imposed property tax legislation on school districts to give property taxpayers some relief by delaying tax increases each year. The legislation limits the levy increase to the lesser of the consumer price index (CPI) or five percent and mandates the use of prior year equalized assessed valuation (EAV) amounts to generate property tax receipts. This "tax cap" continues to limit the District's tax collection ability.
- The current weak economy, in both the nation and the state, continues to affect the District's state funding levels and timing of state receipts.

Requests for Information

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Assistant Superintendent for Finance and Operations, Oak Park Elementary School District 97, 970 West Madison Street, Oak Park, Illinois 60632.

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities Year Ended June 30, 2010

Amounts reported for governmental activities in the statement of activities are different because: State grant revenues that are deferred in the fund financial statements because they are		
not available but are recognized as revenue in the government-wide financial statements.		1,780,686
Interest income that was deferred in the fund statements in the prior year is recognized in the current year		(125,269)
Governmental funds report capital outlays as expenditures paid while governmental activities report depreciation expense to allocate those expenditures over		
the lives of the assets. This is the amount by which depreciation exceeded capital outlays in the current period.		
Capital outlays \$	1,405,110	
	(2,566,393)	(1,161,283)
In governmental funds, long-term debt issued is considered an other source of financing		
but in the statement of net assets, long-term debt is reported as a liability.		
General obligation bonds		(2,900,000)
Repayment of principal on long-term debt is an expenditure in the governmental funds,		
but the repayment reduces long-term liabilities in the statement of net assets.		
Bond principal retirement		4,830,000
Capital lease obligations		61,615
Some expenses reported in the statement of activities do not require the use of		
current financial resources and, therefore, are not reported as expenditures in		
governmental funds. These activities consist of:		
(Increase) in health insurance claims incurred but not reported	(90,405)	
Decrease in sales leaseback deferred revenue	592,500	
Decrease in accrued interest	18,963	
(Increase) in net pension obligation	(101,276)	
(Increase) in postemployment benefits	(746,205)	(4 (0 0 0 0)
Decrease in compensated absences	163,514	(162,909)
Change in net assets of governmental activities	=	\$ 480,086

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies

Nature of Activities

Oak Park Elementary School District 97 operates as a public school system under the direction of its Board of Education. The District is organized under The School Code of the State of Illinois, as amended. The District also operates a school lunch and breakfast program and provides student transportation services.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies:

Financial Reporting Entity

As defined by generally accepted accounting principles established by the GASB, the financial reporting entity consists of the primary government, as well as component units, which are legally separate organizations for which elected officials of the primary government are financially accountable. Financial accountability is defined as:

Appointment of a voting majority of the component unit's board, and either a) the ability to impose will by the primary government, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or fiscal dependency on the primary government.

Based upon the application criteria, no component units have been included within the reporting entity.

Government-Wide and Fund Financial Statements

Government-Wide Financial Statements (GWFS): The government-wide Statement of Net Assets and Statement of Activities report the overall financial activity of the District. Eliminations have been made to minimize the double counting of internal activities of the District. The financial activities of the District consist of governmental activities, which are primarily supported by taxes and intergovernmental revenues.

The Statement of Net Assets presents the District's non-fiduciary assets and liabilities with the difference reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds and other debt that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation. The District has no restricted net assets at June 30, 2010.

Unrestricted net assets consist of net assets that do not meet the criteria of the two preceding categories.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (continued)

Government-Wide and Fund Financial Statements (continued)

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first to finance qualifying activities, then unrestricted resources as they are needed.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function (i.e., instruction, support services, etc.) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs (including fines and fees), and (b) grants and contributions that are restricted to meeting the operational requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fiduciary funds are excluded from the government-wide financial statements.

Fund Financial Statements (FFS): Separate financial statements are provided for governmental funds and fiduciary (agency) funds, even though the latter are excluded from the government-wide financial statements. The fund financial statements provide information about the District's funds. The District has the following governmental funds - General, Special Revenue, Debt Service, and Capital Projects. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District administers the following major governmental funds:

General Fund – This is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund – This fund accounts for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

Working Cash Fund (Special Revenue Fund) – This fund accounts for the revenue sources that are restricted to expenditures for the working cash needs of the District.

All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

Additionally, the District administers an agency fund that is used to account for assets held by the District in an agency capacity. These funds are held on behalf of the students of the District.

Measurement Focus and Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include various taxes, state-shared revenues and various state, federal and local grants. On an accrual basis, revenues from taxes are recognized when the District has a legal claim to the resources and for property taxes in the year for which they are levied (i.e., intended to finance). Grants, entitlements, state-shared revenues and similar items are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (continued)

Measurement Focus and Basis of Accounting and Financial Statement Presentation (continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year.

Significant revenue sources which are susceptible to accrual include property taxes, other taxes, grants, and interest. All other revenue sources are considered to be measurable and available only when cash is received.

Expenditures generally are recorded when the liability is incurred, as under accrual accounting. However, compensated absences are recorded only when payment is due (upon employee retirement or termination). General capital asset acquisitions are reported as expenditures in governmental funds.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

Property taxes

Property taxes are levied each year on all taxable real property in the District on or before the last Tuesday in December. The 2009 tax levy was passed by the Board of Education in December 2009, and attached as an enforceable lien on the property as of the preceding January 1. These taxes become due and collectible in March and December 2010 and are collected by the county collector who in turn remits to the District its respective share. The District receives these remittances within one month of the collection dates. For all funds, the District recognizes property tax revenue in the year for which they are levied (i.e. intended to finance) provided they are collected within 60 days after year-end with the remaining portion of the levy to be recognized in the following fiscal year. Property taxes not collected within 60 days after year end or collected prior to the year intended to finance are reflected as deferred revenue in the current year. This methodology conforms to the measurable and available criteria for revenue recognition. A reduction for collection losses, based on historical collection experience, has been provided to reduce the taxes receivable to the estimated amounts to be collected. At June 30, 2010, the allowance for uncollectible amounts was approximately 3% of the total levy.

The Property Tax Extension Limitation Law imposes mandatory property tax limitations on the ability of taxing districts in Illinois to raise revenues through unlimited property tax increases. The increase in property tax extensions is limited to the lessor of 5% or the percentage increase in the Consumer Price Index for all Urban Consumers. The limitation includes taxes levied for purposes without a statutory maximum rate. The amount of the limitation may be adjusted for new property added or annexed to the tax base or due to voter approved increases.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (continued)

Assets, Liabilities, and Net Assets or Equity

Cash and Investments

Cash resources from all governmental funds are combined to form a pool of cash and temporary investments. Interest income earned is allocated based on each fund's proportionate share of the total funds invested. State law requires that all deposits of the Student Activity Fund be kept separate and apart from all other funds of the District. The District's cash and investments are reported at carrying amounts which reasonably estimate fair values.

Interfund Receivables, Payables, and Activity

Loans – amounts provided with a requirement for repayment. Interfund loans are reported as due from other funds in lender funds and due to other funds in borrower funds for short-term borrowings and advances to other funds in lender funds and advances from other funds in borrower funds for long-term borrowings. Amounts are eliminated in the government-wide statement of net assets.

Reimbursements – repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them. Reimbursements are reported as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund.

Transfers – flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

Capital Assets

Capital assets which include land, buildings, and other equipment, are reported in the applicable Statement of Net Assets. Capital assets are defined as assets with an initial individual cost of more than \$2,500, and an estimated useful life of greater than one year. Additions or improvements that significantly extend the useful life of an asset, or that significantly increase the capacity of an asset are capitalized. Expenditures for asset acquisitions and improvements are stated as capital outlay expenditures in the governmental funds. The District also has various capital leases for copy machines included within the capital assets balance.

These assets have been valued at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at their estimated fair market value at the date of donation.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (continued)

Assets, Liabilities, and Net Assets or Equity (continued)

Capital Assets (continued)

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Depreciation of capital assets is recorded in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Assets and is provided on the straight-line basis over the following estimated useful lives:

Land improvements	15 - 20 years
Buildings	20 - 75 years
Other equipment	5 - 25 years

Deferred and Unearned Revenue

In the government-wide statement of net assets, the District reports unearned revenue recognition in connection with resources that have been billed or received, but not yet earned. Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period.

Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements, or are payable with expendable financial resources. These amounts are recorded in the fund from which the employees who have accumulated vacation leave are paid from.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at June 30, 2010 are determined on the basis of current salary rates and include salary related payments.

Employees who work a twelve-month year are entitled to be compensated for vacation time. Vacations are usually taken within the fiscal year, but are allowed to be carried over for a period of six months after year-end. The entire compensated balances liability is reported on the government-wide financial statements.

All certified employees receive a specified number of sick days per year depending on the years of service, in accordance with the agreement between the Board of Education and the Education Association. Unused sick leave days accumulate to a maximum of 240 days. When an employee with 10 or more years of service resigns from the District, he/she will be reimbursed for any remaining unused sick days at a rate of \$15 per day. Upon notifying the District of retirement, a certified employee will gain an additional 220 sick days in their final year of employment which will not be paid out, but may be applied toward service credit for TRS.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (continued)

Assets, Liabilities, and Net Assets or Equity (continued)

The General Fund is typically used to liquidate these liabilities.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations, including compensated absences and postemployment benefits, are reported as liabilities in the Statement of Net Assets. Items such as premiums, discounts, bond issuance costs and gains or losses on bond sales are capitalized and amortized over the life of the related debt.

In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Restricted Net Assets

For the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either:

Externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments;

Imposed by law through constitutional provisions or enabling legislation.

Fund Balance Reserves

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Eliminations and Reclassifications

In the process of aggregating data for the government-wide Statement of Activities, some amounts reported as interfund activity and interfund balances in the funds are eliminated or reclassified.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenditures/expenses during the period. Actual results could differ from these estimates.

Notes to Basic Financial Statements

Note 2. Cash and Investments

Deposits

State statutes authorize the District to make deposits directly to interest bearing depository accounts in federally insured and/or state chartered banks, savings and loan associations and credit unions. As of June 30, 2010, the District had deposits with federally insured financial institutions of \$14,387,875 with bank balances totaling \$15,070,004.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District's investment policy limits exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. As of June 30, 2010, the District's entire bank balance was fully insured and collateralized.

Investments

As of June 30, 2010, the District had the following investments:

	Fair Value, due in less than 1 year
Illinois School District Liquid Asset Fund Plus - Liquid Class Illinois School District Liquid Asset Fund Plus - Max Class	\$ 3,257,743 8,130,877
	\$ 11,388,620

The Illinois School District Liquid Asset Fund Plus investments are shown as maturing in less than one year because the weighted average maturity of the pool is less than one year.

Notes to Basic Financial Statements

Note 2. Cash and Investments (continued)

Interest Rate Risk - The District's investment policy does not limit its investment portfolio to specific maturities.

Illinois School District Liquid Asset Fund Plus is a not-for-profit pooled investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Directors elected from the participating members. Illinois School District Liquid Asset Fund Plus is not registered with the SEC as an investment company. Investments in Illinois School District Liquid Asset Fund Plus are valued at Illinois School District Liquid Asset Fund Plus's share price, which is the price the investment could be sold for.

Credit Risk - State statutes authorize the District to invest in direct obligations of, or obligations guaranteed by, the United States Treasury or agencies of the United States and short-term obligations of corporations organized in the United States with assets exceeding \$500,000,000. The District is also authorized to invest in the Illinois School District Liquid Asset Fund Plus. The District restricted its investments to only those investments described above.

As of June 30, 2010, the District's investments in the Illinois School District Liquid Asset Fund Plus were rated AAAm by Standard & Poor's.

Concentration of Credit Risk – The District's investment policy does not restrict the amount of investment in any one issuer. None of the District's investments are subject to concentration of credit risk disclosures.

Custodial Credit Risk – Investments - For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Illinois School District Liquid Asset Fund Plus investment is not subject to custodial credit risk. The District's investment policy limits exposure to investment custodial credit risk requiring all investments be secured by private insurance or collateral.

The above deposits of \$14,387,875 and investments of \$11,388,620 that totals \$25,776,495 are presented in the basic financial statements as cash and investments as follows:

Statement of Net Assets, governmental activities	\$ 25,311,361
Statement of Fiduciary Net Assets, agency fund	 465,134
	\$ 25,776,495

Notes to Basic Financial Statements

Note 3. Capital Assets

Capital asset balances and activity for the year ended June 30, 2010, are as follows:

	Balance July 1, 2009	Additions	Decreases/ Retirements	Balance June 30, 2010

Governmental activities				
Capital assets, net	\$ 60,189,967	\$ (939,867)	\$ (221,416)	\$ 59,028,684

Notes to Basic Financial Statements

Note 3. Capital Assets (continued)

Depreciation expense was charged to governmental activities as follows:

Instruction:		
Regular programs	\$ 1,185,	612
Special education	447,	792
Other instructional programs	65,	339
Support services:		
Pupils	149,	752
Instructional staff	118,	671
General administration	73,	752
School administration	124,	996
Business	80,	630
Central	78,	155
Other		790
Operations and maintenance	235,	057
Community services	3,	553
Non-programmed charges	2,2	294
	\$ 2,566,	393

The District also has various capital leases for copy machines. As of June 30, 2010, the cost and related accumulated depreciation for those assets are approximately \$223,000 and \$89,000, respectively.

Note 4. Lease Commitments

The District leases equipment under noncancelable operating leases. The total expenditures related to such leases was \$205,115 for the year ended June 30, 2010. At June 30, 2010, future minimum lease payments on these leases are as follows:

Year Ending June 30: 2011 2012	\$ 192,365 5,640
	\$ 198,005

Notes to Basic Financial Statements

Note 5. Long-Term Obligations

Long-term obligation balances and activity for the year ended June 30, 2010, as well as obligations due within one year are as follows:

	 General Obligation Bonds	Capital Leases	Po	stemployment Benefits	(Compensated Absences	Totals
Balance, July 1, 2009 Debt issued Retirements Additions	\$ 31,975,000 2,900,000 (4,830,000)	\$ 283,366 - (61,615) -	\$	731,773 - - 746,205	\$	371,064 - (197,871) 145,553	\$ 33,361,203 2,900,000 (5,089,486) 891,758
Balance, June 30, 2010	\$ 30,045,000	\$ 221,751	\$	1,477,978	\$	318,746	\$ 32,063,475
Amounts due within one year	\$ 5,050,000	\$ 66,034	\$	· .	\$	173,193	\$ 5,289,227

In prior years, the District defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2010, \$10,811,727 of bonds outstanding are considered defeased.

Interest rates on the outstanding bonds and capital leases range from 3.15 percent to 11.54 percent. As of June 30, 2010, the future annual debt service requirements on the outstanding long-term debt excluding employment benefits and compensated absences are as follows:

Year Ending	General	General Obligation Bonds & Capital Leases							
June 30,	Principal	Interest	Total						
2011	\$ 5,116,034	\$ 2,376,415	\$ 7,492,449						
2012	2,640,788	2,130,006	4,770,794						
2013	2,515,903	1,912,421	4,428,324						
2014	2,664,026	1,679,323	4,343,349						
2015 - 2019	17,330,000	4,167,900	21,497,900						
	\$ 30,266,751	\$ 12,266,065	\$ 42,532,816						

The District's estimated legal debt limitation of \$120,101,502 based on 6.9 percent of the estimated 2009 equalized assessed valuation of \$1,740,601,475, less the outstanding general obligation bonds of \$30,045,000, results in a legal debt margin of \$90,056,502.

Notes to Basic Financial Statements

Note 6. Risk Management

The District is exposed to various risks related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect from such risks, the District participates in the following public entity risk pools: School Employee Loss Fund (SELF) for workers' compensation claims, and Collective Liability Insurance Cooperative (CLIC) for property damage and injury claims. The District pays annual premiums to the pools for insurance coverage. The arrangements with the pools provide that each will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pools.

The District is self-insured for medical coverage that is provided to District personnel. A third-party administrator administers claims for a monthly fee per participant. Expenditures are recorded as incurred in the form of direct contributions from the District to the third-party administrator for payment of employee health claims and administration fees. The District's liability will not exceed \$130,000 per employee or \$3,720,187 in the aggregate, as provided by stop-loss provisions incorporated in the plan.

At June 30, 2010, total unpaid claims, including an estimate of claims that have been incurred but not reported to the administrative agent, totaled \$354,350. The estimates are developed based on reports prepared by the administrative agent. The District does not allocate overhead costs or other nonincremental costs to the claims liability.

For the two years ended June 30, 2010 and June 30, 2009, changes in the liability reported on the Government-Wide Financial Statements for unpaid claims are summarized as follows:

	Begi	s Payable nning of Year	Cla Ch	rent Year aims and anges in stimates	Claims Payments	ims Payable nd of Year
Fiscal Year 2010	\$	263,945	\$ 3	,499,471	\$ 3,409,066	\$ 354,350
Fiscal Year 2009	\$	260,088	\$2	,566,324	\$ 2,562,467	\$ 263,945

Note 7. Postemployment Benefits

Plan Description. The District provides postemployment medical and dental healthcare benefits to educational support employees who contribute to the Illinois Municipal Retirement Fund (IMRF). For the special District subsidy, the member must have worked at least 10 years at retirement. Certified employees and Administrators who contribute to the Teachers' Retirement service (TRS) are eligible for post-retirement medical and dental coverage if they have worked at least 10 years prior to retirement.

This is a single-employer plan. The Retiree Health Plan does not issue a publicly available financial report.

Both certified and support staff may elect coverage for medical plans (whether PPO or HMO) or dental plans (PPO or HMO).

Notes to Basic Financial Statements

Note 7. Postemployment Benefits (continued)

Funding Policy. The required contribution is based on projected pay-as-you-go financing requirements. The funding policy of the District may be amended by the School Board. For fiscal year 2010, the District contributed \$498,468 to the plan.

Retirees may elect to cover themselves and their spouses or families. For most staff, the District will pay 60% of the cost of the HMO employee-only rate. Administrators are subsidized at 72% of the HMO employee-only rate, and custodians are subsidized at 65% of the HMO employee-only rate. Retirees from the lunchroom are only allowed to retain coverage for themselves. The subsidies are the same for the dental plan, except that custodians are subsidized at 60% instead of 65%.

The subsidy remains for up to 4 years or until age 65, whichever occurs first.

Annual OPEB Cost and Net OPEB Obligation. The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The District's net OPEB obligation at June 30, 2010 is included as a liability on the Statement of Net Assets as "postemployment benefits."

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2010, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the plan:

Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution Annual OPEB cost	\$ 1,209,139 35,534 - 1,244,673
Contributions made	 (498,468)
Increase in net OPEB obligation Net OPEB obligation beginning of year	 746,205 731,773
Net OPEB obligation end of year	\$ 1,477,978

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 and the two preceding years were as follows:

Fiscal Year Ending	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
06/30/2010	\$ 1,244,673	40% \$	5 1,477,978
06/30/2009	1,209,139	39%	731,773
06/30/2008	N/A	N/A	N/A

N/A – Information is not available as GASB 45 was not implemented by the District until fiscal year 2009.

Notes to Basic Financial Statements

Note 7. Postemployment Benefits (continued)

Funded Status and Funding Progress. As of July 1, 2008, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for benefits was \$9,442,338, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$9,442,338. The covered payroll (annual payroll of active employees covered by the plan) was \$37,318,040, and the ratio of the UAAL to covered payroll was 25 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about the future employment, mortality, and the healthcare cost trend. Amounts determined reporting the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2008 actuarial valuation (most recent available), the projected unit credit (PUC) method was used. This cost method produces an explicit normal cost and actuarial accrued liability. The normal cost represents the portion of the present value which is allocated to the valuation year by the actuarial cost method. Under PUC, the current year's portion is equal to the present value of benefit (PVB) divided by the total credited service at the anticipated retirement date. The actuarial accrued liability (AAL) represents the present value of past service liability of the employee's total PVB. Under PUC, AAL= PVB times the ratio of the participant's credited service to the total credited service at the anticipated retirement date.

The actuarial assumptions included a 5.0 percent investment rate of return (net of administrative expenses), a general inflation rate of 3.0 percent, annual projected salary increases of 3.0 percent, and an annual healthcare cost trend rate of 8.0 percent initially, reduced by decrements to an ultimate rate of 4.0 percent. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2010 was 29 years.

Note 8. Retirement Fund Commitments

Teachers' Retirement System

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago.

The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The State of Illinois maintains the primary responsibility for funding the plan, but contributions from participating employers and members are also required. The TRS Board of Trustees is responsible for the system's administration.

Notes to Basic Financial Statements

Note 8. Retirement Fund Commitments (continued)

TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher certification is required. The active member contribution rate for the year-ended June 30, 2010, was 9.4 percent of creditable earnings. These contributions, which may be paid on behalf of employees by the District, are submitted to TRS by the District. The active member contribution rate was also 9.4 percent for each of the years ended June 30, 2009 and 2008.

The State of Illinois makes contributions directly to TRS on behalf of the District's TRS-covered employees.

• On-behalf contributions to TRS

The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2010, State of Illinois contributions were based on 23.38 percent of creditable earnings not paid from federal funds, and the District recognized revenue and expenditures of \$8,620,146 in pension contributions that the State of Illinois paid directly to TRS. For the years ended June 30, 2009 and June 30, 2008, the State of Illinois contribution rates as percentages of creditable earnings not paid from federal funds were 17.08 percent (\$5,754,376) and 13.11 percent (\$3,986,805), respectively.

The District makes other types of employer contributions directly to TRS.

• 2.2 formula contributions

Employers contribute .58 percent of total creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2010, were \$216,673. Contributions for the years ended June 30, 2009 and June 30, 2008, were \$199,733 and \$180,627, respectively.

• Federal and special trust fund contributions

When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under a policy adopted by the TRS Board of Trustees that was first effective for the fiscal year ended June 30, 2006, employer contributions for employees paid from federal and special trust funds will be the same as the state contribution rate to TRS.

For the year ended June 30, 2010, the employer pension contribution was 23.38 percent of salaries paid from federal and special trust funds. For the years ended June 30, 2009 and 2008, the employer contribution was 17.08 and 13.11 percent of salaries paid from federal and special trust funds, respectively. For the year ended June 30, 2010, salaries totaling \$487,745 were paid from federal and special trust funds that required employer contributions of \$114,035. For the years ended June 30, 2009 and 2008, required District contributions were \$130,495 and \$95,982, respectively.

• Early Retirement Option.

The District is also required to make one-time employer contributions to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the age and salary of the member and under which ERO program the member retires.

Notes to Basic Financial Statements

Note 8. Retirement Fund Commitments (continued)

Public Act 94-0004 made changes in the ERO program that were in effect for all ERO retirements in fiscal years 2008 through 2010. The act increased member and employer contributions and eliminated the waiver of member and employer ERO contributions that had been in effect for members with 34 years of service.

Under the current ERO, the maximum employer contribution is 117.5 percent and applies when the member is age 55 at retirement.

For the year ended June 30, 2010, the District was required to pay \$72,635 to TRS for employer contributions under the ERO program. For each of the years ended June 30, 2009 and June 30, 2008, the District paid \$10,000 under employer ERO contributions.

Salary increased over 6 percent and excess sick leave

Public Act 94-0004 added two additional employer contributions to TRS.

If an employer grants salary increases over 6 percent and those salaries are used to calculate a retiree's final average salary, the employer makes a contribution to TRS. The contribution will cover the difference in actuarial cost of the benefit based on actual salary increases and the benefit based on salary increases of up to 6 percent.

For the year ended June 30, 2010, the District paid \$10,000 to TRS for employer contributions due on salary increases in excess of 6 percent. For the years ended June 30, 2009 and 2008, the District paid no amounts to TRS for employer contributions due on salary increase in excess of 6 percent.

If an employer grants sick leave days in excess of the normal annual allotment and those days are used as TRS service credit, the employer makes a contribution to TRS. The contribution is based on the number of excess sick leave days used as service credit, the highest salary used to calculate final average salary, and the TRS total normal cost rate (18.55 percent of salary during the year ended June 30, 2010).

For the years ended June 30, 2010, 2009, and 2008, the District was required to pay no amounts to TRS for sick leave days granted in excess of the normal annual allotment.

Further Information on TRS

TRS financial information, an explanation of TRS benefits, and descriptions of member, employer and state funding requirements can be found in the TRS *Comprehensive Annual Financial Report* for the year ended June 30, 2009. The report for the year ended June 30, 2010, is expected to be available in late 2010.

The reports may be obtained by writing to the Teachers' Retirement System of the State of Illinois, P.O. Box 19253, 2815 West Washington Street, Springfield, IL 62794-9253. The most current report is also available on the TRS Web site at www.trs.illinois.gov.

Notes to Basic Financial Statements

Note 8. Retirement Fund Commitments (continued)

Teachers' Health Insurance Security Fund

The District participates in the Teachers' Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit postemployment healthcare plan that was established by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants may participate in the state administered participating provider option plan or choose from several managed care options.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The Illinois Department of Healthcare and Family Services (HFS) and the Illinois Department of Central Management Services (CMS) administer the plan with the cooperation of TRS. The director of HFS determines the rates and premiums for annuitants and dependent beneficiaries and establishes the cost-sharing parameters. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to the TRS who are not employees of the state make a contribution to THIS.

The percentage of employer required contributions in the future will be determined by the director of Healthcare and Family Services and will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

• On behalf contributions to THIS Fund

The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 0.84 percent of pay during the year ended June 30, 2010. State of Illinois contributions were \$313,803, and the District recognized revenue and expenditures of this amount during the year.

State contributions intended to match active member contributions during the years ended June 30, 2009 and 2008 were also 0.84 percent of pay, \$289,269 and \$261,597, respectively.

• Employer contributions to THIS Fund

The District also makes contributions to the THIS Fund. The employer THIS Fund contribution was 0.63 percent during the years ended June 30, 2010, June 30, 2009 and June 30, 2008. For the year ended June 30, 2010, the District paid \$235,352 to the THIS Fund. For the years ended June 30, 2009 and June 30, 2008, the District paid \$216,951 and \$196,198 to the THIS Fund, respectively, which was 100 percent of the required contribution.

The publicly available financial report of the THIS Fund may be obtained by writing to the Department of Healthcare and Family Services, 201 S. Grand Ave., Springfield, IL 62763-3838.

Illinois Municipal Retirement Fund

Plan Description. The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multi-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on-line at www.imrf.org.

Notes to Basic Financial Statements

Note 8. Retirement Fund Commitments (continued)

Funding Policy. As set by statute, the District's regular plan members are required to contribute 4.50 percent of their annual covered salary. The statutes required employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's contribution rates for calendar years 2010 and 2009 are 8.5 percent and 7.72 percent, respectively of annual covered payroll. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Annual Pension Cost. For the fiscal year ending June 30, 2010, the District contributed \$706,054 to the Regular plan. The District's required contributions, and net pension cost were \$807,330, resulting in a net pension obligation at June 30, 2010 of \$101,276.

The required contribution for 2010 and 2009 was determined as part of the December 31, 2008 and 2007, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2008 and 2007, included (a) 7.5 percent investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 4.00% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10% per year depending on age and service, attributable to seniority/merit, and (d) post retirement benefit increases of 3% annually. The actuarial value of the District's regular plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The District's regular plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2008 was 22 years.

Information related to the employer's contributions is on a fiscal year basis. The actuarial and trend information are on a calendar year basis as that is the year used by IMRF.

Calendar Year Ending	Annual Pension Cost	Percentage of APC
December 31,	(APC)	Contributed
2009	\$ 645,633	100%
2008	625,802	100%
2007	573,935	100%

Three Year Trend Information

Funded Status and Funding Progress. As of December 31, 2009, the most recent actuarial valuation date, the Regular plan was 70.24 percent funded. The actuarial accrued liability for benefits was \$14,076,795 and the actuarial value of assets was \$9,888,123, resulting in an underfunded actuarial accrued liability (UAAL) of \$4,188,672. The covered payroll (annual payroll of active employees covered by the plan) was \$8,363,119 and the ratio of the UAAL to the covered payroll was 50 percent. In conjunction with the December 2009 actuarial valuation the market value of investments was determined using techniques that spread the effect of short – term volatility in the market value of investments over a five – year period with a 20% corridor between the actuarial and market value of assets. In 2010, the unfunded actuarial accrued liability is being amortized on a level percentage of projected payroll on an open 30 year basis.

This schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

PRELIMINARY DRAFT FOR REVIEW AND DISCUSSION --SUBJECT TO CHANGE— NOT TO BE REPRODUCED

Notes to Basic Financial Statements

Note 9. Contingent Liabilities and Commitments

As of June 30, 2010, the District is committed under construction contracts of approximately \$824,000.

The District received financial awards from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2010.

Note 10. Other Financial Disclosures (FFS Level Only)

Interfund balances as of June 30, 2010 are as follows:

Governmental Funds	Du	le From	 Due To
Nonmajor: Site and Construction	\$	61,872	\$ -
Fire Prevention and Safety		-	 61,872
	\$	61,872	\$ 61,872

The interfund debt balances reflect operating loans for the anticipation of expenses which are expected to be repaid in the following fiscal year.

Transfers for the year ended June 30, 2010, are as follows:

Governmental Funds	 Fransfers In	T	ransfers Out
Major:			
General - Educational Accounts	\$ 3,089,550	\$	-
General - Operations & Maintenance Accounts	-		21,462
Debt Service	-		58,969
Working Cash	 -		3,009,119
	 3,089,550		3,089,550
Nonmajor:			
Fire Prevention and Safety	948,164		-
Site and Construction Fund	 -		948,164
	\$ 4,037,714	\$	4,037,714

Interfund transfers are to assist with costs of operations, construction, and debt service purposes.

Notes to Basic Financial Statements

Note 10.	Other Financial Disclosures (FFS Level Only) (continued)	
	expenditures g funds overexpended their budgets for the year ended June 30, 2010:	
Major gove Debt Serv	rnmental fund: ice Fund	\$ 6,757
, ,	overnmental fund: Retirement Fund	94,215

Note 11. Pronouncements Issued But Not Yet Adopted

The following is a description of GASB authoritative pronouncements which have been issued but not yet adopted by the District.

GASB Statement No. 54, *Fund Balance Reporting and Government Fund Type Definition*, will be effective for the District beginning with its year ending June 30, 2011. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, will be effective for the District with its year ended June 30, 2012. This statement addresses issues related to the use of the alternative measurement method and the frequency and timing of measurements by employers that participate in agent multiple-employer other postemployment benefit plans.

GASB Statement No. 59, *Financial Instrument Omnibus*, will be effective for the District with its year ended June 30, 2011. This statement updates and improves existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

Note 12. Litigation

The District is occasionally party to lawsuits and claims arising out of the conduct of its business. The District is of the opinion that its liability, if any, will not have a material effect on these financial statements.

Note 13. Sales-Leaseback Transaction

In April 2007, the District approved a sale-leaseback with the Village of Oak Park. Under the terms of this agreement, the District agreed to sell its Administration Building to the Village for \$2,370,000, to be paid in two installments of \$1,185,000. Title to the building transferred to the Village within 30 days of the second installment. In return, the District will lease the building from the Village for \$1 per year beginning August 1, 2008. At the conclusion of the lease term on August 1, 2012, title to the Administration Building will revert back to the District. At June 30, 2010, \$1,185,000 of deferred revenue remains in the government wide financial statements. In addition, the building is included with capital assets on the government wide financial statements.

Required Supplementary Information

Schedule of Funding Progress Illinois Municipal Retirement Fund

Actuarial Valuation Date	Actuarial Value of Assets (a)		Actuarial Accrued Liability (AAL) Entry Age (b)	((Unfunded Dverfunded) AAL (b-a)	ł	Funded Ratio (a/b)		Covered Payroll (c)	Unfunded Overfunded) AAL as a Percentage of Covered Payroll ((b-a)/c)
12/31/09	\$ 9,888,123	\$	14,076,795	\$	4,188,672		70.24	%	\$ 8,363,119	50.09
12/31/08	11,909,113	Ţ	15,051,119	Ţ	3,142,006		79.12		7,972,000	39.41
12/31/07	14,018,522		13,254,307		(764,215)		105.77		7,228,405	(10.57)

On a market value basis, the actuarial value of assets as of December 31, 2009 is \$9,435,091. On a market basis, the funded ratio would be 67.03%.

Note to Required Supplementary Information

Note 1. Budgetary Basis of Accounting

Annual budgets are adopted for all governmental fund types except for the Student Activity Fund, an agency fund. The annual budgets are adopted on a basis consistent with the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. The District does not budget for certain retirement contributions made on its behalf by the State of Illinois. All budgets lapse at fiscal year-end.

On or before July 1 of each year, the Superintendent is to submit for review by the Board of Education a proposed budget for the school year commencing on that date. After reviewing the proposed budget, the Board of Education holds public hearings and a final budget must be prepared and adopted no later than September 30.

The appropriated budget is prepared by fund and function. The Board of Education may make transfers between functions within a fund not exceeding in the aggregate 10% of the total of each fund, and may amend the total budget following the same procedures required to adopt the original budget. The legal level of budgetary control is at the fund level.

For budgetary purposes, the District does not recognize as revenues received the retirement contributions made by the State to the Teachers' Retirement System of the State of Illinois (TRS) and the Teachers' Health Insurance Security Fund (THIS) on behalf of the District as well as the related expenditures paid.

The following schedule reconciles the revenues and expenditures on the budgetary basis with the amounts presented in accordance with accounting principles generally accepted in the United States of America for the District's General Fund.

	(General Fund
Revenues - Budgetary basis Unbudgeted retirement contributions from TRS and THIS	\$	57,974,427 8,933,949
Revenues - GAAP basis	\$	66,908,376
Expenditures - Budgetary basis Unbudgeted retirement contributions to TRS and THIS	\$	62,048,037 8,933,949
Expenditures - GAAP basis	\$	70,981,986
