**INDEPENDENT AUDITOR'S REPORT**

Board of Directors  
Three Rivers School District  
Josephine County, Oregon

We have audited the accompanying financial statements of governmental activities, each major fund, and the aggregate remaining fund information of the Three Rivers School District (the District) as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Three Rivers School District as of June 30, 2010, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2010, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Board of Directors  
Three Rivers School District  
Josephine County, Oregon

Accounting principles generally accepted in the United States of America require the Management's Discussion and Analysis, the General Fund, the Special Revenue Fund budgetary comparison information, and the Schedule of Funding Progress – Other Postemployment Benefits be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Management's Discussion and Analysis and the Schedule of Funding Progress – Other Postemployment Benefits in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of District management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basics financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The General Fund and Special Revenue Fund budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information, as listed in the Table of Contents, is presented for the purposes of additional analysis and is not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as listed in the Table of Contents, is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. The supplemental information and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**THREE RIVERS/JOSEPHINE COUNTY UNIT JOINT SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2010**

The discussion and analysis of Three Rivers School District's financial performance provides an overall review of the District's financial activities for the fiscal year ending June 30, 2010. The intent of this discussion and analysis is to review the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34. Certain comparative information between the current year and prior years is required to be presented in the MD&A.

**Overview of the Financial Statements**

The District's basic financial statements consist of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the basic financial statements. In addition to the basic financial statements, we provide supplementary information that you may also find useful.

**Government-wide financial statements** (pages 1 - 2) The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances using the accrual basis of accounting, in a manner similar to a private-sector business. These statements include:

The ***Statement of Net Assets***, which presents information on all of the assets and liabilities of the District at year end. Net assets are what remain after the liabilities have been paid or otherwise satisfied. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The ***Statement of Activities***, which presents information showing how the net assets of the District changed over the year, by tracking revenues, expenses and other transactions that increase or reduce net assets. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows only in future fiscal periods (for example, uncollected taxes and earned but unused vacation leave).

In the government-wide financial statements, the District's activities are shown in one category, *Governmental Activities*. Most of the District's functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues.

**Fund Financial Statements** The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives (like the Food Service Fund) or to show that it is meeting legal responsibilities for using certain grants (like Title I and other federal, state, or locally funded grants). All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental Funds** (pages 3 - 6) reporting focuses on showing how money flows into and out of funds, and the balances left at year-end that are available for spending. They are reported using an accounting method called modified accrual, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's operations and the services it provides. Governmental fund information helps you to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental *funds* is reconciled in the financial statements.

The District maintains many individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General, Special Revenue, Capital Projects Fund, and Debt Service Fund, all of which are considered to be major funds.

The District maintains one **Proprietary Fund** (pages 7 – 9); this fund is used to accumulate and allocate costs internally among the District's various functions. The District also uses its internal service fund for self-insurance purposes, primarily for employees' unemployment benefits, deductibles on insurance, and for the costs of vandalism.

**Fiduciary funds** (pages 10 – 11) are used to account for resources held for the benefit of parties by the District in a trustee capacity. These funds include student scholarships and foundation funds. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs.

## **Government-Wide Financial Analysis**

Over time, net assets may serve as a useful indicator of the District's financial position; as of June 30, 2010, the District's assets exceeded its liabilities by \$30.7 million, a decrease of approximately \$2.77 million from Fiscal year 2009.

- The primary factors for the decrease in Net Assets was due to net reductions in cash and receivables and an increase in long term liabilities from the sale of QZAB bonds for energy efficiency projects.
- The District's long-term liabilities are about \$48.77 million (with \$1.7 million due within one year) and consist of the following:

○ 2001 G. O. bonds -	\$18.63 million
○ 2004 PERS (UAL) bonds -	\$26.48 million
○ Capital Leases -	\$ 1.66 million
○ QZAB bonds -	\$ 2.00 million
- The District's OPEB (Other Post Employment Benefits) obligation increased slightly this year but the estimated cash flow over the next 7 years should gradually decrease by approximately 20% or \$480,000.
- The District's current liabilities, including the obligations due within the next year (above), are \$4.19 million.

## Financial Analysis of the District's Funds

The significance of the District's governmental funds is that they provide information about short-term cash flow and funding for future basic services. This information is useful in assessing the District's financing requirements. In particular, the *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

*General Fund:* The General Fund is the primary operating fund of the District. As of June 30, 2010, the unreserved fund balance was \$1.93 million; a decrease of \$2.05 million from the previous year. This was due to reserves being used to operate schools the entire year.

*Debt Service* - The Ending Fund Balance in the debt service fund increased approximately \$146,000, from \$2.65 million to \$2.8 million, of which \$140,000 was added to the PERS reserve account for anticipated future year cost increases.

- The District maintains an Aa3 rating from Moody's for general obligation debt and at the end of the Fiscal Year 2010; the District had a total outstanding bonded debt of \$47.12 million which includes \$2.0 million of QZAB bonds purchased in September 2009 for energy projects.

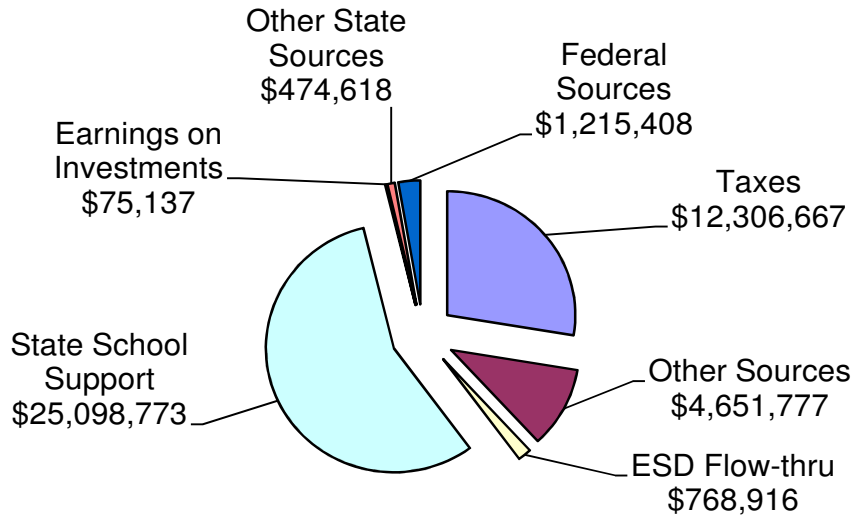

*Capital Projects* – The Ending Fund Balance in the Capital Projects fund increased this year by \$1.3 million due to \$2.0 million in QZAB bond receipts that was not completely expended. In addition, \$123,000 was received from Josephine and Jackson counties from the construction excise tax. After the energy projects are completed there will only be approximately \$700,000 remaining for regularly scheduled or catastrophic repair issues.

- The District's investment in capital assets includes land, vehicles, equipment, buildings and improvements and was about \$50.3 million, a decrease of approximately \$600 thousand from the previous year. The decrease was due to accumulated depreciation and only a small portion of capital equipment added.
- Additions to the District's capital assets were district wide servers, 2 walk-in freezers, 2 PA systems, and energy conservation equipment which include lighting retrofits, domestic hot water heater upgrades, and high efficiency gas boilers.

### General Fund Expenses for Fiscal Year 2010

## **Economic Factors & Next Year's Budget**

Fiscal year 2010 continues to find Oregon in an unprecedented time of economic stress. Most of the revenue the state generates for schools comes through income tax. Oregon, with an unemployment rate that has not dipped below 10%, has one of the highest unemployment rates in the nation. With the passage of two temporary tax increases and support from federal funding, Oregon was able to maintain most of the promised money to schools for fiscal year 2010. Three Rivers School District was able to survive the combination of continued declining enrollment and rough economic times by going to our reserves. We began the year with more than \$3 million dollars in our ending fund balance but we used more than half of that to run a full school year.

Fiscal year 2011 does not hold better news. With the economy continuing to be slow to recover, the funding for Three Rivers School District was reduced by \$2 million dollars on May 29<sup>th</sup>. This was particularly troubling and spirit breaking on the part of the state as they issued a funding projection on May 15<sup>th</sup> statewide which many districts including Three Rivers School District used to base their fiscal year 2011 budget and then slashed that funding level a couple of weeks later. There were a few hours of relief when the federal government once again passed an education jobs bill that sent money to schools. However, because of another declining revenue forecast, the governor immediately released a letter saying don't count on spending those funds as "additional." Weeks later the governor once again made across the board cuts to state spending that basically wiped out any relief from the federal dollars. For fiscal year 2011 and beyond all of Oregon's school systems are being forced to look at every aspect of how schools are operated as there will simply not be enough funding to continue many previous practices.

## **Requests for Information**

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Superintendent at 8550 New Hope Road, Grants Pass, Oregon 97527.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED JUNE 30, 2010**

NET CHANGE IN FUND BALANCE		\$	(468,630)
<p>Amounts reported for governmental activities in the Statement of Activities are different because:</p>			
<p>Government funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.</p>			
Disposal of capital assets	\$	(10,843)	
Expenditures for capital assets		2,250,893	
Less current year depreciation		<u>(2,832,853)</u>	(592,803)
<p>Repayment of principal is an expenditure in the governmental funds, but reduces the liability in the Statement of Net Assets. This is the principal payment.</p>			
			1,503,644
<p>Governmental funds report the effect of issuance costs, premiums, and discounts when debt is first issued, whereas these amounts are deferred and amortized in Statement of Activities. This amount is the net effect of these differences:</p>			
Amortization of premium (discount)		6,602	
Amortization of issuance costs		<u>(42,365)</u>	(35,763)
<p>Internal service funds are used by management to charge the costs of unemployment insurance premiums to individual funds. This activity is consolidated with the governmental activities in the statement of activities.</p>			
			73,412
<p>In the Statement of Activities interest is accrued on long-term debt, whereas in the governmental funds it is recorded as an interest expense when due.</p>			
Interest paid		2,312,560	
Interest expense		<u>(2,302,479)</u>	10,081
<p>Prepaid pension benefit obligations are reported as an asset on the Statement of Net Assets. These amounts are amortized in the Statement of Activities.</p>			
			(975,762)
<p>Property taxes that do not meet the measurable and available criteria are not recognized as revenue in the current year in the governmental funds. In the Statement of Activities property taxes are recognized as revenue when levied.</p>			
			304,977
<p>The District implemented GASB Statement 45, which requires the District record the net post employment benefit obligation, actuarially determined. The other post employment benefit liability is not reported in government funds.</p>			
Net post employment benefit obligation actuarially determined			(437,146)
<p>Governmental funds report the proceeds from long-term debt financing as income, while in the Statement of Activities the proceeds are eliminated and included in the Statement of of Net Assets as a liability.</p>			
QZAB Bonds			(2,000,000)
Lease Proceeds			(192,365)
<p>Compensated absences are recognized as an expenditure in the governmental funds when they are paid. In the Statement of Activities compensated absences are recognized as an expenditure when earned.</p>

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 1 - Summary of Significant Accounting Policies**

**The Reporting Entity**

Three Rivers School District (the District), Murphy, Oregon, was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a separately elected five-member Board of Education (Board) who approves the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in generally accepted accounting principles (GAAP). The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, the District does not have any component units which require inclusion in the combined financial statements.

The more significant of the District's accounting policies are described below.

**Basis of Presentation**

The financial statements of Three Rivers School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

**Government-wide Financial Statements**

The Statement of Net Assets and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions.

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 1 - Summary of Significant Accounting Policies (continued)**

Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Separate financial statements are presented for governmental funds and fiduciary funds. The District has an internal service fund, which is reported as a proprietary fund.

Net assets are reported as restricted when constraints placed on net asset use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

**Fund Financial Statements**

The fund financial statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

The District reports the following major governmental funds:

*General Fund* - This is the District's primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund.

*Special Revenue Fund* - This fund accounts for revenue sources that are legally restricted to expenditure for specific purposes. This fund accounts for the revenues and expenditures related to Federal and State grants, as well as those related to student body activities.

*Debt Service Fund* - This fund accounts for the servicing of general long-term debt not being financed by the General Fund. For the District, this includes the PERS Bonds and Full Faith General Obligation Bonds payments. The principal sources of revenues are property taxes, earnings on investments, services provided to other funds and other local revenues.

*Capital Projects Fund* - This fund accounts for the acquisition, construction and maintenance of improvements within the District. Principal revenue sources are construction excise taxes, miscellaneous revenues, investment earnings and interfund transfers.

Additionally, the District reports the following fund type:

*Internal Service Fund* - The Internal Service Fund accounts for monies used for self-insurance policies. Principal revenue sources are fees charged, miscellaneous revenues and investment earnings.

The following Fiduciary fund is reported:

*Fiduciary Fund* - These are the funds that account for the assets held by the District as a trustee or agent on behalf of others. Trust funds account for assets held by the government under the terms of a formal trust agreement. The fund included in this category is:

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 1 - Summary of Significant Accounting Policies (continued)**

*Private Purpose Trust Scholarship Fund* - This fund accounts for resources received and held in a fiduciary capacity, in accordance with a trust agreement for student scholarships.

**Measurement Focus and Basis of Accounting**

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. As a general rule the effect of interfund activity has been eliminated from the governmental-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures to the extent they have matured, certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources, and early retirement benefits which are recorded when paid. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Private sector standards of accounting and reporting issued prior to December 1, 1989, generally are followed in the government-wide fund financial statements to the extent that these standards do not conflict or contradict the guidance of the Governmental Accounting Standards Board.

**Cash, Cash Equivalents and Investments**

The District's cash and cash equivalents consist of cash on hand, demand deposits, secured market deposit accounts, and short-term investments with original maturities of three months or less. Short-term investments are stated at cost which approximates fair value.

The District's investments, authorized under state statute, consist of banker's acceptances, commercial paper, U.S. Government Agency securities, and the State of Oregon Treasurer's Local Government Investment Pool (LGIP). Banker's acceptances, commercial paper and U.S. Government Agency securities are stated at amortized cost which approximates fair value. The LGIP is stated at cost which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares.

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 1 - Summary of Significant Accounting Policies (continued)**

seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP. The investments are regulated by the Oregon Short Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895).

**Investment Income**

Investment income is composed of interest and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the fund financial statements, and is allocated monthly to all funds based on the fund's average cash balance.

**Property Taxes Receivable**

Ad valorem property taxes are levied on all taxable property as of January 1 preceding the beginning of the fiscal year. Property taxes become a lien on July 1 for personal property and real property. Property taxes are levied on July 1. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are recorded on the Statement of Net Assets. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established.

**Accounts and Other Receivables**

Accounts and other receivables are comprised primarily of State school support and claims for reimbursement of costs under various federal and state grants. Due to the nature of the receivables and the likelihood of collection, no provision for uncollectibles has been made.

**Grants**

Unreimbursed grant expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as deferred revenue.

**Interfund Transactions**

Advances between funds are accounted for in the appropriate interfund receivable and payable accounts. These advances (reported in "due from" asset accounts) are considered "available spendable resources".

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses.

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 1 - Summary of Significant Accounting Policies (continued)**

**Supplies Inventory**

Supplies Inventory is valued at cost using first-in, first-out method. Accounting for supplies inventory is based on the consumption method whereby inventory is recorded when purchased and expenditures/expenses are recorded when inventory items are used.

A portion of the inventory consists of donated United States Department of Agriculture (USDA) commodities. Commodities are recorded as expenditures when purchased and are stated at their fair market value based on guidelines provided by the USDA. Commodities on hand at year end are included in Supplies Inventory on the Statement of Net Assets.

**Capital Assets**

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one year. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	25 to 50 years
Vehicles	10 to 15 years
Equipment	5 to 20 years

**Retirement Plan**

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). Contributions to PERS are made on a current basis as required by the plan and are charged as expenditures/expenses as funded.

**Compensated Absences**

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. The current and long term liabilities for vested or accumulated vacation leave, compensatory time, and retirement benefits are reported on the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave or resignation.

No liability is recorded for nonvesting accumulating rights to receive sick pay benefits.

**Long-term Debt**

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements bond premiums and discounts, as well as bond issuance costs, are recognized when incurred and not deferred. The face amount of the debt issued, premiums received on debt issuances, and discounts are reported as other financing sources and uses.

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 1 - Summary of Significant Accounting Policies (continued)**

Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**Unamortized Bond Issuance Costs**

Bond premiums and discounts, as well as issuance costs are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method.

**Post-employment Health Benefits**

Eligible employees who elect early retirement are entitled to payment of group medical insurance premiums. Such costs are recorded as expenses in the governmental fund types as premiums become due.

**Fund Equity**

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

**Net Assets**

Net assets represents the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or law or regulations of other governments.

**Budget**

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting. The budgetary basis of accounting is the same as accounting principles generally accepted in the United States of America for the governmental fund types, except capital outlay expenditures, including items below the District's capitalization level, are budgeted by major function in governmental fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detailed budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of a fund's original budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers within a fund between the levels of control (major function levels) with Board approval. During the year there were no resolutions appropriating

**June 30, 2010**

**Note 1 - Summary of Significant Accounting Policies (continued)**

unanticipated resources. Appropriations lapse at the end of each fiscal year. The District did exceed its authorized appropriations for the year ended June 30, 2010 in the General Fund Instruction function by \$5,901.

**Use of Estimates**

The preparation of basic financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

**Note 2 - Equity in Pooled Cash and Investments**

Cash and investments are comprised of the following as of June 30, 2010:

Deposits with financial institutions:	
Demand Deposits	\$ 5,900,109
LGIP	<u>2,878,528</u>
Total deposits with financial institutions	<u><u>\$ 8,778,637</u></u>

Cash and investments are shown on the basic financial statements as:

Statement of Net Assets	
Cash and Cash Equivalents	\$ 8,715,549
Statement of Fiduciary Net Assets	
Cash and Cash Equivalents	<u>63,088</u>
Total Cash and Cash Equivalents	<u><u>\$ 8,778,637</u></u>

**Deposits.** The Governmental Accounting Standards Boards has adopted accounting principles generally accepted in the United States of America (GAAP), which include standards to categorize deposits to give an indication of the level of custodial credit risk assumed by the District at June 30, 2010. If bank deposits at year end are not entirely insured or collateralized with securities held by the District or by its agent in the District's name, the District must disclose the custodial credit risk that exists. Deposits with financial institutions are comprised of bank demand deposits. For the fiscal year ended June 30, 2010, the carrying amounts of the District's deposits in various financial institutions were \$5,900,109 and the bank balances were \$7,229,550. All deposits are held in the name of the District. Of the bank balance, all is considered to be covered by federal depository insurance and the State of Oregon shared liability structure for participating bank depositories in Oregon.

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 2 - Equity in Pooled Cash and Investments (continued)**

Effective July 1, 2008, House Bill 2901 created a shared liability structure for participating bank depositories in Oregon. Barring any exceptions, a qualifying bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of the quarter-end public fund deposits if they are adequately capitalized, or 110% of the quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public bank depositories is available to repay the deposits of public funds of governmental entities.

*Custodial Credit Risk.* Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk.

**Investments.** Three Rivers School District has invested funds in the State Treasurer's Oregon Short-term Fund Local Government Investment Pool during fiscal year 2010. The Oregon Short-term Fund is the local government investment pool for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). Local Government Investment Pool (LGIP) is an external investment pool managed by the State Treasurer's office, which allow governments within the state to pool their funds for investment purposes. The amounts invested in the pool are not classified by risk categories because they are not evidenced by securities that exist in physical or book entry form as defined by GASB statement No. 40.

In addition, the Oregon State Treasury LGIP distributes investment income on an amortized cost basis and participants' equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the District's cash position.

Investments in the Oregon State Treasury LGIP are made under the provisions of ORS 194.180. These funds are held in the District's name and are not subject to collateralization requirements or ORS 295.015. Investments are stated at amortized cost, which approximated fair value.

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool. As of June 30, 2010 and for the year then ended, the District was in compliance with the aforementioned State of Oregon statutes.

*Credit Risk.* State Statutes authorize the District to invest primarily in general obligations of the U.S. government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, banker's acceptances, certain commercial papers, and the State Treasurer's Investment Pool, among others. The District has no formal investment policy that further restricts its investment choices.

*Concentration of Credit Risk.* The District is required to provide information about the concentration of credit risk associated with its investments in one issuer that represents 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the U.S. Government. The District has no such investments.

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 2 - Equity in Pooled Cash and Investments (continued)**

*Interest Rate Risk.* The District has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

<u>Investment Type</u>	<u>Maturity</u>	<u>Percentage of Portfolio</u>	<u>Fair Value</u>
State of Oregon Treasurer's Local Government Investment Pool	1 day	100%	<u>\$ 2,878,528</u>

**Note 3 - Receivables**

Receivables are comprised of the following as of June 30, 2010:

	<u>Other</u>	<u>Grants</u>	<u>Property Taxes</u>	<u>Total</u>
General Fund	\$ 298,048	\$ -	\$ 1,100,306	\$ 1,398,354
Special Revenue Fund	-	1,521,258	-	1,521,258
Debt Service Fund	-	-	168,927	168,927
Capital Projects Fund	<u>3,240</u>	<u>101,585</u>	<u>-</u>	<u>104,825</u>
Total receivables	<u>\$ 301,288</u>	<u>\$ 1,622,843</u>	<u>\$ 1,269,233</u>	<u>\$ 3,193,364</u>

**Note 4 - Prepaid Pension Expense**

Payments for fees or services that will benefit periods beyond the fiscal year end are recorded as prepaid items. In February, 2004, Three Rivers School District issued limited tax pension obligation bonds to financed its unfunded actuarial retirement liability. As a result, the District has prepaid a significant portion of its pension expense. This prepaid amount reflects twenty-six years advance payment of the District's pension obligation. Therefore, the amounts are being amortized over a twenty-six year period utilizing the straight-line method.

	<u>Original Issue</u>	<u>Prepaid at June 30, 2009</u>	<u>Amortization</u>	<u>Prepaid at June 30, 2010</u>
Prepaid Pension Expense	<u>\$ 24,394,028</u>	<u>\$ 19,515,222</u>	<u>\$ 975,762</u>	<u>\$ 18,539,460</u>

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 5 - Capital Assets**

The changes in capital assets for the year ended June 30, 2010, are as follows:

	Balance <u>July 1, 2009</u>	<u>Additions</u>	<u>Deletions</u>	Balance <u>June 30, 2010</u>
Capital assets not being depreciated				
Land	\$ 598,311	\$ -	\$ -	\$ 598,311
Construction in Progress	<u>-</u>	<u>665,535</u>	<u>-</u>	<u>665,535</u>

<u>Program</u>	
Instruction	\$ 1,552,838
Supporting Services	1,161,598
Community Services	<u>118,417</u>
Total	<u>\$ 2,832,853</u>

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 6 - Long-Term Debt**

Qualified Zone Academy Bonds

On September 24, 2009, The District issued Qualified Zone Academy Bonds (QZAB) in the amount of \$2,000,000. The bonds purchased by All Points Capital Corp. with Section 1397E of the Internal Revenue Code, and as such, qualified for tax credits relating to the transaction. The bond proceeds were required to be used to provide for facility preservation and major maintenance in accordance with the QZAB financing plan.

To qualify for use of the QZAB proceeds, individual schools must qualify by meeting federal guidelines for certain economic demographics. The primary use of the funds was for renovations of the primary and secondary schools in the District. In addition, initial funding for the SB 1149 energy efficiency projects was provided by the QZAB proceeds so that projects could move forward in a timely manner. As SB 1149 funds become available in future years, they will then be utilized to repay a portion of the QZAB debt.

As a result of the structure of the QZAB, the District is required to repay \$2,224,816 in total principal and interest payments over the 15 year term. The District will make equal annual payments in the amount of \$133,332 through 2023. Interest expense for the fiscal year was \$19,260. For the fiscal year 2024, a balloon payment of \$358,168, which includes principal and interest, is due and payable.

<u>Year ending</u> <u>June 30th</u>	<u>QZAB Installment</u>	
	<u>Principal</u>	<u>Interest</u>
2011	\$ 103,372	\$ 29,960
2012	110,139	23,193
2013	111,486	21,846
2014	112,849	20,483
2015	114,229	19,103
2016-2020	592,443	74,717
2021-2024	<u>855,482</u>	<u>35,514</u>
	<u>\$ 2,000,000</u>	<u>\$ 224,816</u>

Pension Obligation Bonds

On February 5, 2004, limited tax pension obligation bonds totaling \$26,620,000 were issued to finance the District's unfunded actuarially accrued liability (UAAL) with the State of Oregon Public Employees Retirement System (PERS). The issuance of the bonds was considered an advance refunding of the District's UAAL. The actual savings realized over the life of the bonds is uncertain because of the various legislative changes and legal issues pending with the PERS system which could impact the future required contribution rate. Interest expense on these bonds for the fiscal year was \$1,433,326.

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 6 - Long-Term Debt (continued)**

General Obligation Bonds

General Obligation bonds are direct obligation and pledge the full faith and credit of the District. These bonds were issued to provide funds for the acquisition and construction of school facilities. The original amount of the General Obligation bonds issued in prior years was \$24,000,000. On January 26, 2005, the District issued \$17,720,000 of general obligation bonds to provide resources to purchase U.S. Government State and Local Government Series securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$17,405,000 of general obligation bonds. The interest expense on these bonds for the fiscal year was \$885,656. As a result, the refunded bonds are considered to be defeased, and the liability has been removed from the governmental activities column on the Statement of Net Assets.

Capital Leases

Various lease agreements have been entered into with interest rates varying from 1.223% to 4.478%. During the current fiscal year, the District entered into two lease-purchase arrangements for computer equipment. These agreements qualify as capital leases for accounting purposes and have been recorded at the present value of the future minimum lease payments as of the inception date in the Statement of Net Assets. The total cost of the lease purchase items is \$2,189,852 with a net book value of \$1,806,989.

The changes in long-term obligations for year ended June 30, 2010, are as follows:

Issue Date:	Outstanding July 1, 2009	Issued	Matured and Redeemed	Outstanding June 30, 2010	Interest Rates
PERS Bonds					
February 5, 2004	\$ 26,590,000	\$ -	\$ (115,000)	\$ 26,475,000	4.40-5.53%

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 6 - Long-Term Debt (continued)**

The annual debt service requirements on long-term debt outstanding as of June 30, 2010 are as follows:

Year Ending June 30th	Bonds	Capital Leases	Total	Interest
2011	\$ 1,398,372	\$ 259,775	\$ 1,658,147	\$ 2,359,653
2012	1,620,139	269,499	1,889,638	2,267,517
2013	1,821,486	179,780	2,001,266	2,200,137
2014	2,032,849	112,788	2,145,637	2,126,849
2015	2,274,229	81,520	2,355,749	2,033,977
2016-2020	15,882,442	442,819	16,325,261	8,171,634
2021-2025	14,155,483	315,641	14,471,124	4,243,264
2026-2029	7,920,000	-	7,920,000	794,926
Total	<u>\$ 47,105,000</u>	<u>\$ 1,661,822</u>	<u>\$ 48,766,822</u>	<u>\$ 24,197,957</u>

The District also has the following changes in Other Long Term Obligations:

	Balance 7/1/2009	Earned	Used	Balance 6/30/10	Due Within 1 Year
Compensated absences	<u>\$ 123,335</u>	<u>\$ 109,440</u>	<u>\$ 152,214</u>	<u>\$ 80,561</u>	<u>\$ 80,561</u>

**Note 7 - Interfund Transactions**

Interfund transfers during the year ended June 30, 2010, were as follows:

	Transfers In	Transfers Out
General Fund	\$ 157,959	\$ 447,677
Special Revenue	88,312	8,594
Capital Projects	160,000	-
Self Insurance	50,000	-
Total Transfers	<u>\$ 456,271</u>	<u>\$ 456,271</u>

During the 2009-10 fiscal year, the Board of Directors approved transfers out from the General Fund and the Special Revenue Fund, respectively. The General Fund received a transfer from Fund 150 as part of the approved school budgetary programs. Special Revenue Funds received the transfer to fund a variety of special programs. Capital Projects Fund transfer was to fund energy projects and capital lease payments. The Self Insurance Fund transfer was to fund future obligations.

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 8 - Pension Plan**

The District contributes to two pension plans administered by the Oregon Public Employees Retirement System (PERS). The Oregon Public Employees Retirement Fund (OPERF) applies to the District's contribution for qualifying employees who were hired before August 29, 2003, and is a cost-sharing multiple-employer defined benefit pension plan. The Oregon Public Service Retirement Plan (OPSRP) is a hybrid successor plan to the OPERF and consists of two programs: The Pension Program, the defined benefit portion of the plan, applies to qualifying District employees hired after August 29, 2003, and to inactive employees who return to employment following a six-month or greater break in service. Benefits are calculated by a formula for members who attain normal retirement age. The formula takes into account final average salary and years of service. Beginning January 1, 2004, all PERS member contributions go into the Individual Account Program (IAP), the defined contribution portion of the plan. PERS members retain their existing PERS accounts, but any future member contributions are deposited into the member's IAP, not the member's PERS account.

Both PERS plans provide retirement and disability benefits, post employment healthcare benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS is administered under Oregon Revised Statute Chapter 238, which establishes the Oregon Public Employees Retirement Board (OPERB) as the governing body of PERS. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to PERS, PO Box 23700, Tigard, OR, 97281-3700 or by calling 503-598-7377.

Covered employees are required by state statute to contribute 6.00% of their annual salary to the system. The District is required by ORS 238.225 to contribute at an actuarially determined rate for the qualifying employees under the OPERF plan, and a general service rate for the qualifying employees under the OPSRP plan. The OPERF and the OPSRP rates in effect for the year ended June 30, 2010 were 10.52% and 11.04% respectively. The contribution requirements for plan members are established by ORS Chapter 238 and may be amended by an act of the Oregon Legislature. The District borrowed \$26,620,000 to prepay part of its PERS liability thereby reducing the rate paid to PERS to 2.78% on Tier 1 and Tier 2 employees, effective March 1, 2004. The District's contributions to PERS for the years ending June 30, 2010, 2009 and 2008 were \$2,638,099, \$3,691,444, and \$3,563,056, respectively, equal to the required contributions for each year. The District has included the prepaid pension asset in the Statement of Net Assets and will amortize the asset over 25 years effectively reducing the annual future pension required contribution to below the annual pension cost.

**Note 9 - Contingencies**

Amounts received or receivable from grantor agencies are subject to compliance audits by grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The School District has elected, under the State Unemployment Act of July 1, 1974, to reimburse the State Employment Department for any claims paid. Reimbursements are made from the District's Unemployment Insurance Fund. The District is unable to determine at this time the amount of the contingent liability for potential unemployment insurance claims.

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 10 - Other Postemployment Benefits (OPEB)**

Post Employment Stipends

Plan Description - A single-employer defined benefits supplemental early retirement program is maintained, which covers all licensed employees not receiving explicit medical benefits and who have at least 18 years of service. This program has been established under collective bargaining agreements and provides employees with a stipend of 1/84 of their final annual salary per month. Payments are made for a maximum of seven years, but in no event past age 65 or death.

Funding Policy - The benefits from this program are fully paid and, consequently, no contributions by employees are required. There is no obligation to fund these benefits in advance. The only obligation is to make current benefit payments due each fiscal year. Consequently, it has not been found necessary to establish a pension trust fund, and makes benefit payments on a pay-as-you-go basis each year out of the General Funds. An estimate of this liability for current retirees is done annually. There is no separately issued financial report for the plan. For the fiscal year ended June 30, 2010, there were no expenditures recognized on a budgetary basis for early retirement stipends.

Annual Pension Cost and Net Pension Obligation - The annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 27. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities or funding excess) over a period not to exceed thirty years. The following table shows the components of the annual (OPEB cost for the year ending June 30, 2010, the amount actually contributed to the plan, and changes in the net OPEB obligation:

	2010
Annual required contribution (ARC)	\$ 245,609
Contributions made	(14,154)
Increase (Decrease) in Net OPEB obligation	231,455
Net OPEB Obligation - Beginning of fiscal year	163,264
Net OPEB Obligation - End of fiscal year	\$ 394,719

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2010 are:

Fiscal Year Ending	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2010	\$ 245,609	5.76%	\$ 394,719

Actuarial methods and assumptions - The annual required contribution (ARC) for the current year was determined as part of the July 1, 2009 actuarial valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 10 - Other Postemployment Benefits (continued)**

trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of the plan assets is increasing or decreasing over time relative to actuarial accrued liabilities for benefits.

For the initial valuation, the Projected Unit Credit Actuarial Cost Method was the valuation method used to determine the Actuarial Accrued Liability and the Normal Cost.

Under this method, the expected accrued benefit of each participant at benefit commencement (reflecting future expected increases in salaries and medical premiums) is allocated in equal proportion over the participant's years of service from hire to expected retirement. The normal cost is the present value of benefits expected to accrue in the current year.

The present value of benefits accrued in as of the valuation date is called the accrued liability. The difference between the accrued liability and the actuarial value of plan assets is called the unfunded accrued liability. The unfunded accrued liability is being amortized over the initial period of 30 years as a level percent of payroll for stipend benefits.

Schedule of Funding Progress - Stipend Benefits:

Actuarial Valuation Date	(a) Actuarial Value of Assets	(b) Actuarial Accrued Liability (AAL)	(b) -(a) ALL (UAAL)	(a/b) Funded Ration	( c ) Covered Payroll	(b-a)/c UAAL as a Percentage of Covered Payroll
7/1/2009	\$ -	\$ 2,202,235	\$ 2,202,235	0%	\$ 23,019,318	9.60%

Post Employment Health and Life Insurance Subsidy

Plan Description - A single-employer defined benefit plan is maintained that provides District paid postemployment health, dental, vision and life insurance benefits to eligible employees and their spouses. There are active and retired members in the plan. Benefits and eligibility for members are established through the collective bargaining agreements.

Current administrators who have served in the administrative capacity for more than ten years as of June 30, 2004 shall receive early retirement benefits of ten years of current health insurance benefits, but not beyond age 65. All other administrators who have served in an administrative capacity for seven years, or as a licensed teacher and administrator for 18 or more years, will receive seven years of current health insurance, but not beyond age 65. Notwithstanding the above, any administrator hired after August 15, 2007, will not be eligible for any early retirement benefits. Classified bargaining unit members who have at least 20 years of service as of June 30, 2004 shall receive early retirement benefits of ten years of current health insurance benefits, but not beyond age 65. Classified bargaining unit members who have at least 15 years of service in a classified position, and are on the highest step of the salary schedule, shall receive early retirement benefits of seven years of current health insurance benefits, but no beyond age 65. However, if such an employee retires after June 30, 2011, the coverage will be for the employee only. Notwithstanding the above, any classified employee hired after June 30, 2000, will not be eligible

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 10 - Other Postemployment Benefits (continued)**

for any early retirement benefits. Licensed bargaining unit members who have at least 20 years of service and were hired in 1991 or earlier shall receive early retirement benefits of ten years of current health insurance benefits, but not beyond age 65. Notwithstanding the above, any licensed employee retiring after June 30, 2011, will not be eligible for any early retirement benefits.

Retirees pay the whole active (composite) premium unless they have District-paid coverage, in which case they pay according to the cost sharing shown under Current Premiums. There is an implicit subsidy with respect to retired employees because the medical premium rates charges for coverage typically are less than actual expected retiree claims casts. This is due to medical premium rates being determined by blending both active employees and retiree experience.

The post-retirement healthcare plan is established in accordance with Oregon Revised Statutes (ORS) 243.303. ORS stipulated that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. The difference between retiree claims cost, which because of the effect of age is generally higher in comparison to all plan members, and the amount of retiree healthcare premiums represents the District's implicit employer contribution.

An irrevocable trust (or equivalent arrangement) has not been established to account for the plan.

Funding Policy - The benefits from this program are paid as described above and the required contribution is based on projected pay-as-you-go financing requirements. There is no obligation to fund these benefits in advance.

Annual Pension Cost and Net Pension Obligation - the annual other postemployment benefits cost is calculated based on the annual required contribution of the employer (ARC), and amount actuarially determined in accordance within the parameter of GASB statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the OPEB obligation at the end of the year:

	<u>2010</u>
Annual required contribution	\$ 2,503,587
Contributions made	<u>(2,293,440)</u>
Increase in net pension obligation (NPO)	205,691
NPO (Asset) at beginning of year	<u>156,540</u>
NPO (Asset) at end of year	<u><u>\$ 362,231</u></u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2010 are:

Fiscal Year	Annual OPEB Cost	Percentage of Annual OPEB cost contributed	Net OPEB Obligation
2010	\$ 2,499,131	91.77%	\$ 362,231

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 10 - Other Postemployment Benefits (continued)**

Actuarial Methods and Assumptions - The annual required contribution (ARC) for the current year was determined as part of the July 1, 2009 actuarial valuation using the projected unit credit method. The objective of this method is to fund each participant's benefits under the plans as they accrue. The unfunded accrued liability is amortized over various periods, which is dependent on the employee class of life insurance. The amortized period range from 10, 20 and 30 years as a percentage of payroll. The actual assumptions included (a) an interest rate for discounting future liabilities of 4% compounded annually, a payroll growth rate of 3.0% and a payroll growth plus merit and longevity increases of 4.0% annually (b) 100% of future retirees electing to participate. The demographic assumptions, such as mortality rates, disability incidence rates, retirement rates and withdrawal rates, are the same as those used by Oregon PERS for School Districts.

Funding Status and Funding Progress - As of July 1, 2009, the plan was 0% funded. The actuarial accrued liability for benefits was \$19,548,007, and the actuarial value of assets was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$19,548,007. The covered payroll (annual payroll of active employees covered by the plan) was \$23,019,318, and the ratio of the UAAL to the covered payroll was 84.9%. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Schedule of Funding Progress - Postemployment Health Care and Life Insurance Benefits:

Actuarial Valuation Date	(a) Actuarial Value of Assets	(b) Actuarial Accrued Liability (AAL)	(b) - (a) AAL (UAAL)	(a/b) Funded Ratio	(c) Covered Payroll	(b-a)/(c) UAAL as a Percentage of Covered Payroll
7/1/2009	-	\$ 19,548,007	\$ 19,548,007	0%	\$ 23,019,318	84.90%

**Note 11 - Current Vulnerability Due to Certain Concentrations**

The District's operations are concentrated within Josephine County. In addition, substantially all the District's revenues for continuing operations are from federal, state, and local government agencies. In the normal course of operations, the District receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

**Note 12 - Risk Management**

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. Worker's compensation insurance is also provided through a commercial carrier. There has been no significant reduction in insurance coverage from the prior year and the District has not been required to pay any settlements in excess of insurance coverage during the past three fiscal years ending June 30, 2010.

**THREE RIVERS SCHOOL DISTRICT**  
**Notes to Basic Financial Statements**  
**June 30, 2010**

**Note 13 - Economic Dependency**

Statement of Financial Accounting Standards (SFAS) No. 14 requires disclosure in financial statements of a situation where one entity provides more than 10% of the audited entity's revenue. The Basic School Support funding provided by the state to all public school systems in Oregon is primarily based on student enrollment. The State provided \$25,098,773 to the District, which represents approximately 61.80% of the District's total general revenues for the year.

**Note 14 - Adoption of New Accounting Standard**

On July 1, 2010, the District adopted GASB Statement 54 "*Fund Balance Reporting and Governmental Fund Type Definitions*", a new accounting standard. This statement requires new fund balance presentations under the following classifications; Nonspendable, Restricted, Committed, Assigned, and Unassigned. Additionally, GASB Statement 54 provides for new Governmental Fund definitions. In accordance with this Statement, the District has implemented a plan for identifying the necessary changes to external financial reporting and educating the Board and key management personnel on the new presentation. The adoption of this new accounting standard has not resulted in a change in unrestricted net assets.

**Note 15 - Subsequent Events**

Subsequent to the fiscal year end, other events were evaluated through December 17, 2010, which is the date the financial statements were available to be issued.

**Independent Auditor's Report  
Required by Oregon State Regulations**

We have audited the basic financial statements of the Three Rivers School District (the District) as of and for the year ended June 30, 2010, and have issued our report thereon dated December 17, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller of the United States.

**Compliance**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not the objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures but were not limited to the following:

- Deposit of public funds with financial institutions under ORS Chapter 295.
- Budgets legally required under ORS Chapter 294.
- Insurance and fidelity under bonds in force or required by law.
- Programs funded from outside sources.
- Investments of surplus funds authorized under ORS Chapter 294.
- Public contracts and purchasing under ORS Chapters 279A, 279B, 279C.
- Debt limitations under ORS Chapter 328.245

In connection with our audit, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administration Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

## **Accounting Systems and Internal Controls**

The District's accounting and internal controls systems are adequate and the accounting records are properly maintained. The internal controls for the District are operating as designed and no material weaknesses were noted.

## **Collateral**

Based on our review of the District's records, the District was in compliance with the provisions of ORS Chapter 295. The banks used by the District were considered qualified financial institutions for the year ended June 30, 2010.

## **Budget Compliance**

We reviewed the preparation, adopting, and execution of the budget for the current year and the preparation and adoption of the ensuing year's budget. Based on our procedures, the District appears to have complied with statutory requirements for the current year and the ensuing year's budget, except as follows:

During the fiscal year ended June 30, 2010, the District exceeded its appropriation authority as follows:

General Fund:	
Instruction	\$ 5,901

A resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. Appropriations are established by function (instruction, supporting services, community services, facilities acquisition, debt service, transfers to other funds and contingency) in all funds.

## **Insurance and Fidelity Bond Coverage**

We reviewed the District's insurance policies and determined that such policies appeared to be in force at June 30, 2010. We are not competent by training to comment on the adequacy of the insurance policies covering District owned property at June 30, 2010.

Based on the results of our tests, the District has complied with the provisions of ORS 332.525 regarding the bonding of District personnel.

## **Indebtedness**

The District's bonded indebtedness was in compliance with the provisions of ORS 328.245. The District was in compliance with all debt covenants and all payments were made on a timely basis.

## **Programs Funded From Outside Sources**

We selected and tested, to the extent deemed appropriate, transactions, records, and reports relative to programs funded wholly or partially by other governmental agencies.

The results of our tests indicate, for the items tested, the District complied with the laws, rules, and regulations pertaining to programs funded wholly or partially by other governmental agencies, and for the items tested, financial reports and related data were in agreement with and supported by the accounting records.

Separate reports have been issued to report on compliance with appropriate laws and regulations pertaining to Federal Financial Assistance.

## **Investments**

Based on our procedures, it appears that the District was in compliance with the legal requirements of ORS Chapter 294 pertaining to the investment of public funds.

## **Public Contracts and Purchasing**

Based on our procedures and our review of the minutes, the District appears to have complied with the legal requirements pertaining to the awarding of public contracts and the construction of public improvements as contained in ORS Chapter 279.

## **State School Fund Distribution Factors**

Based on our procedures, the District appears to have complied with the legal requirements as stated in ORS 327.013 and as further defined by the Oregon State Department of Education pertaining to the District's calculation and reporting of the factors used to compute the State School Fund distribution.

## **Internal Control**

In planning and performing our audit, we considered the Three Rivers School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Three Rivers School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Three Rivers School District's internal control over financial reporting or over compliance.

No material weakness or significant deficiencies relating to the audit of the basic financial statements are reported in the report on compliance and on internal control over financial reporting based on an audit of financial statements performed in accordance with *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Directors and management of Three Rivers School District and the State of Oregon, Division of Audits and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Board of Directors  
Three Rivers School District  
Josephine County, Oregon

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Three Rivers School District (the District) as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 17, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Board of Directors  
Three Rivers School District  
Josephine County, Oregon

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Three Rivers School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

However, we noted certain matters that we reported to management of the District in a separate letter dated December 17, 2010.

This report is intended solely for the information and use of management; Board of Directors, the State of Oregon, Secretary of State, Division of Audits, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH  
MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN  
ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Directors  
Three Rivers School District  
Josephine County, Oregon

Compliance

We have audited the compliance of the Three Rivers School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of State, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Board of Directors  
Three Rivers School District  
Josephine County, Oregon

### Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information of the Board of Directors, management, the State of Oregon, Secretary of State, Division of Audits, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Note A - Basis of Presentation**

The schedule of expenditures of federal awards includes the federal grant activity of the Three Rivers School District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements

**Note B - Food Distribution**

Non-monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. For the year ended June 30, 2010, the District received food commodities totaling \$131,307.

**THREE RIVERS SCHOOL DISTRICT  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2010**

SECTION I - SUMMARY OF AUDIT RESULTS

**Financial statements**

1. The auditor's report expresses an unqualified opinion on the basic financial statements of Three Rivers School District.
2. No significant deficiencies or material weaknesses in internal control were disclosed by the audit of the basic financial statements of Three Rivers School District.
3. No instances of noncompliance material to the basic financial statements of Three Rivers School District were disclosed during the audit.

**Federal Awards**

4. No significant deficiencies or material weaknesses in internal control over major federal programs were disclosed by the audit process.
5. The auditor's report on compliance for the major federal award programs for Three Rivers School District expresses an unqualified opinion.
5. The audit disclosed no findings that are required to be reported in accordance with section 510(a) of OMB Circular A-133.
7. The programs tested as major programs include:

U.S. Department of Education

Title I	CFDA # 84.010
Title I ARRA	CFDA # 84.389
IDEA	CFDA # 84.027
IDEA ARRA	CFDA # 84.391
State Fiscal Stabilization Fund ARRA	CFDA # 84.394
21 <sup>st</sup> Century Community Learning	CFDA # 84.287

U.S. Department of Agriculture

National School Breakfast	CFDA # 10.553
National School Lunch	CFDA # 10.555
National School Lunch/Breakfast/Summer	CFDA # 10.559

8. The threshold for distinguishing Types A and B Programs was \$300,000.
9. Three Rivers School District was determined to be a low-risk auditee under the criteria specified in OMB Circular A-133.
