

Stability, growth, & resilience I want to help ensure that every financial decision we make supports the health & vitality of our district for years to come.

my commitment to financial longevity means

- a) prioritizing strategic planning
- b) transparent processes
- c) thoughtful allocation of resources

I'm passionate about identifying opportunities for cost efficiency w/o compromising quality, & I believe in building reserves & contingency plans that protect us against future uncertainty. Serving on this committee would allow me to contribute meaningfully to a culture of fiscal responsibility & forward-thinking stewardship.

Thank you

Alana Allen
