#### **B. Aleido ISD 2025 Committee Progress Report**

To date, the administrative team has met with representatives of several disciplines working under VLK Architects. These disciplines include technology consultants, maintenance-electrical-plumbing consultants, civil engineers and architects.

This team will begin the work of site visits on February 17<sup>th</sup> and continue until just prior and even after the beginning of the AISD 2025 Committee's first meeting on March 4<sup>th</sup>. These visits will also entail soliciting feedback from principals, directors and others with specific knowledge of campus/program needs.

### **C. Fifth Grade Move Progress Report**

Since the board's approval of this move on January 20<sup>th</sup>, the AISD administrative staff has been working diligently to prepare for the move of the fifth grade staff and science teachers from all four current K-5 campuses.

A copy of the timeline is attached for the board's review and will be presented at the meeting.
