7117	20.0000.2542.410.007.081.00	0.03071 5234	Today I received a service call regarding blower not running for rtu. I met with Andy who showed me the unit. I began to inspected the motor and electrical. I turned the unit on to inspect operation. The motor wouldn't turn and would draw high amps. I found the relay for blower was bad. I received verbal approval to pick up a new relay. I swapped out the relay and wired it in. I verified blower operations. The blower fan is now functioning properly.	16.89
