Principal's General Narrative:

It has been a very busy start to the school year! BISD staff welcomed parents and students during registration day. As students began the school year, they immediately were assigned their Chromebooks, and ID/door badges. Administration reviewed expectations with all Jr. High and High School students. Emphasis was placed on new rules and procedures and the most frequent infractions dealt with during the past school year and the new cell phone policy. Teachers have noticed a positive change with the new cell phone policy. The cell phone distraction is no longer a problem. We started the year with volleyball games, cross-country meets, and football scrimmages. Students and teachers have embraced the new initiatives for this school year: Tiger Period (planning/intervention time), nine class periods, checking in and checking out for juniors and seniors during lunch time, and the double math and double reading for our 6th and 7th graders. We are confident these changes will be of great benefit to all students at Brackett secondary. There is plenty of time during the instructional day to best support our students. Currently, all beginning of the year assessments in reading and math are coming to an end. Teachers will have meaningful data to provide prescriptive intervention to all students. It is going to be a great school year!
