Sorry, I could not make the meeting. I will be at the Texas School Improvement Conference which will likely give us some new ideas and strategies on how to progress several facets of our school in order to improve our academic ratings.

Our main discipline issue continues to be attendance and tardies. Parent phone calls have been made. Letters have been sent. We plan to file soon.

We had too many failures at the 3 week mark but most students recovered. We still had 17% of OHS students failing one or more classes for the first six weeks. Students are rising to the increased expectations. Progress Reports sent out 10/26/11.

I am really proud of our staff for making the collaborative effort to elevate the expectations, inspiration, and motivation.
