

## OMS Board Report

August 2012

### Professional Development

Core teachers at OMS have been participating in professional development to set-up their Curriculum, Instruction and Assessment notebooks for the 2012-2013 school year. Teachers have been working in vertical teams with OHS for 6-12 alignment. Teachers are working on writing benchmarks for the first cycle and developing a “backward design” rough draft for lesson planning where the teacher marks the assessment date and then with the assessment in hand plans backward through the instruction process.

### Registration

We are getting ready for registration. Our schedule is completed and we have been coordinating with Mrs. Niehues to be certain that all of our procedures are updated and in accordance with state and federal guidelines. Registration will be next week for all campuses.

### Star-Up and Retreat

We are also preparing for start-up for the 2012-2013 school year. New teachers are moving into classrooms and we are working to get our student programs up and running for this year. The OMS staff will go on a team developing retreat August 20-21 at Camp Eagle outside of Rock Springs. We will be working on developing our team unity to better serve our students, parent and community. The staff has been looking forward to and planning this retreat for several months.
