

JACKSON

“I love SSLAC because I get to help out the school and make big decisions. I want to make HMS a better place by cleaning up the fields and tidying up the hallways.

That is why I love SSLAC and Highland so much!”

JACKSON

6th Grade Transition

- It was a little hard to transition to being the youngest grade at school.
- Switching classes was confusing at first but I quickly learned my schedule.
- I like how we change classes and switch teachers throughout the day.

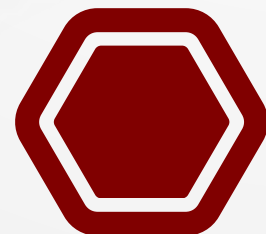

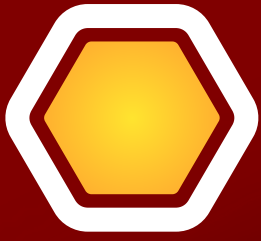

JACKSON

2025 Joint Annual Conference

- I loved the last activity during the conference when we paired up with an adult and learned interesting things about each other.
- I enjoyed going to downtown Chicago and being with a small group. It was much different than a normal field trip.
- I met new students from HMS that I didn't know before the trip.

JACKSON

Observations from Jackson

- I have seen an opportunity to get students together to clean up the fields and outdoor areas.
- This could even be a daily clean-up if it was communicated to the entire school.
