THE LIGHTHOUSE AWARD

The Illinois ASBO Lighthouse Award was established to recognize outstanding practices and new ideas that result in significant contributions to school entities, the profession of school business management or Illinois ASBO and can be replicated by other school business officials.

The 2018 Lighthouse Award recognizes a Superintendent/CSBO who was instrumental in repurposing empty school buildings. Through innovative networking, he was able to create a way to deter vandalism and create revenue for the district while still utilizing the buildings for their original intended purpose.

HELP US CONGRATULATE THE 2018 AWARD RECIPIENT:

Matt J. Wilkinson, RSBA
Former Superintendent

“ The role of the school business official often goes unnoticed despite the enormous importance school finance and operations play in a school district. This award means a great deal to me after over twenty years as a school business administrator. I feel honored to have received this prestigious award and hope I can continue to grow.”
