

Board Report for
January 9, 2017

Maintenance:

Sad to say, Eva Zamora (HS Custodian) lost her daughter on Tuesday night. Please keep her and family in your prayers. On another note, construction is going. Been doing a few things for the construction or ahead of the construction crew. Staying really busy. I have had a couple heaters give trouble but it was nothing and got them going.

Transportation:

Been very busy. Over the holidays, if Rocky wasn't having to do anything for construction, he fixed the heaters in Bus #53. We just have a few little things to fix on a couple vehicles but it's no rush. Just been busy keeping everything filled for trips.
