

ERATE FUNDING

New Hope Technology Foundation

(919)968-4332

New Hope Technology Foundation

As a full service E-Rate Consultant, New Hope assumes the application burden for the entire E-Rate process. We ensure that your district obtains the maximum amount of funding through the federal E-Rate program

Partial List of New Hope's Services

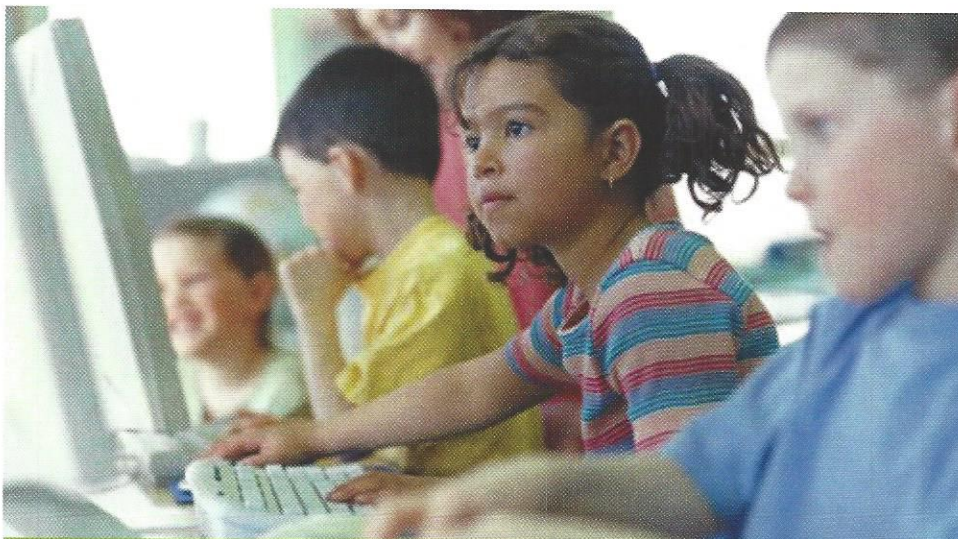

- Determine schools discount rate (conduct surveys as necessary)
- Determine eligible services
- File forms 470, 471, 472, 468, 500 and all other necessary forms
- Answer PIA, PQA and all other program questions
- Manage all audits, appeals and reviews
- Assist with creation of technology plan as needed

Value of using a consultant

A consultant ensures that you are fully compliant with all rules, regulations and deadlines. This allows school administrators and staff to focus scarce time and resources on the business of managing their school. A consultant also ensures that a school is able to maximize opportunities within a program that is constantly evolving. Our all inclusive fee is completely contingent upon successful funding.

New Hope is a hands-on advocate for our clients.

We support numerous professional associations and actively lobby both Congress and the FCC. It is our mission to keep our clients at the forefront of technology funding opportunities.
