

Information on the Reserved Seating at the Football Stadium

There are 15 rows of seating that span 56 feet between the two 40 yard lines of the football field. There are 4 handicap cutout sections and a vomitory (exit stairs that go to the ground in the middle of this reserved section) in this reserved section of seating. Using a spacing of 22 inches for a seat there is 422 reserved seats available in the reserved seating section. I will have a diagram of the actual seating arrangement in about 2 weeks. The company doing the bleacher project will actually number the seats in this section for the school district. Example: Section B/Row 1/Seat 1. We probably need to keep 50 seats to accommodate the VIP section (Coaches family, Board Members and their families, Administrators and their families). We need to determine the cost of a reserved seat so that we can start advertizing and selling the reserved seats.

Thanks,

A handwritten signature in black ink that reads "Jimmy E. Cox". The signature is written in a cursive style with a large, looping initial "J".
