FEBRUARY 2022 HAB PUBLIC

WESTERN OREGON STATE FORESTS HABITAT CONSERVATION PLAN PUBLIC DRAFT

OREGON DEPARTMENT OF FORESTRY

# State Forest Background

- The State of Oregon has a contractual relationship with 15 counties to manage 745,000 acres of state forestlands.
- Managed by ODF on behalf of the forest trust land counties.
- State obligated to support the environmental, economic, and social values of these forests –Greatest Permanent Value (GPV)

## **Tillamook County Beneficiaries**

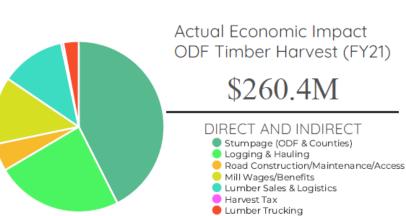

- Statutory Revenue Formula:
  - 36.25% to ODF 63.75% to counties.
- Tillamook County
  - County administration: 28%
  - County School Fund: 23%
  - Local Taxing Districts: 49%

Tillamook County District County Library Nestucca Valley SD 101 Northwest Regional ESD Tillamook Bay Community College 4-H Extension *Emergency-911* Tillamook Transportation Tillamook Soil and Water Conservation Port Tillamook Bay Nestucca RFD SD 9 Port Garibaldi Tillamook FD SD 56 Port of Nehalem North County Recreation District Nehalem Bay Health District Nehalem Bay Fire and Rescue City of Garibaldi SD 63 Willamette ESD

# **Additional Beneficiaries**

#### OREGON STATE FOREST INDIRECT ECONOMIC IMPACTS

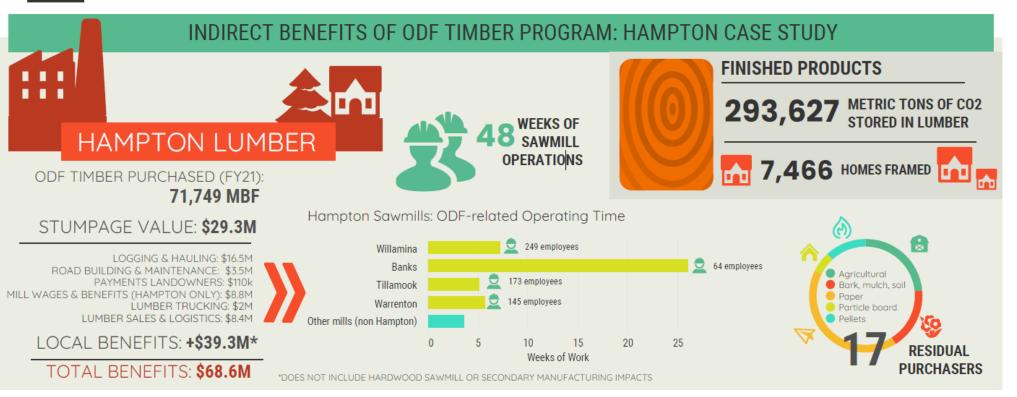

The social and economic impacts of Oregon State Forest timber harvests extend far beyond stumpage payments. In addition to stumpage revenue, ODF harvests in FY21 (260 mmbf) generated more than **\$142.4 MILLION** for logging, hauling, road building, and lumber businesses **IN LOCAL COMMUNITIES.** 

#### It takes a village.

Over 75 small, family-owned businesses worked ODF sales for Hampton in 2021

# What is an Habitat Conservation Plan (HCP)?

- ✓ Voluntary agreement to protect wildlife species and ecosystems
- Provides landowners operational flexibility and assurances
- ✓ Incidental take permit (ITP)

## **Oregon's HCP Process**

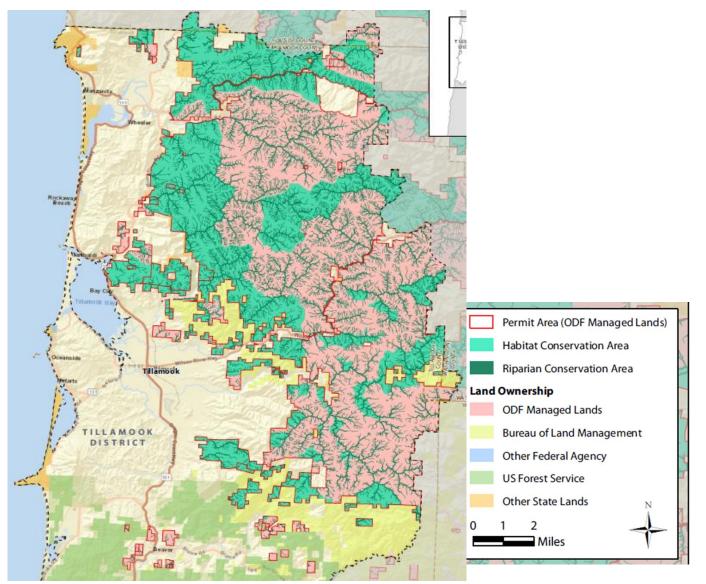

- 2018 ODF prepares draft HCP
  - Negotiated without stakeholder input or consultation with counties
- October 2020 Board of Forestry moves HCP through National Environmental Policy Act (NEPA) process – starting with Scoping Period and EIS development
- USFWS and NOAA's National Marine Fisheries Service review, analyze and approve or deny the State's HCP and ITP

# Stakeholder Concerns

- HCP creates new habitat 50% of forestland will be restricted from harvest, resulting in:
  - 25-30% reduction in harvest (50MMBF) from current levels for all districts
  - \$13M/year reduction in total county revenue
  - 50% budget deficit for ODF
- HCP developed <u>without</u> socio-economic analysis
- Trust land counties submit alternative to Feds to address concerns

## **ODF Tillamook District HCAs**

## 5 EIS "alternatives" under consideration

- Alt 1 No Action (current FMP/take avoidance)
- Alt 2 Proposed Action (ODF's HCP)
- Alt 3 Increased Conservation
  - Increased buffers (no harvest areas) for small perennial and seasonal non-fish-bearing streams
  - Road decommission goals
- Alt 4 Reduced Permit Term
  - Reduces HCP from 70 years to 50 years
- Alt 5 Increased Timber Harvest *preferred from these options* 
  - Adds 15,500 acres for harvest (2.08% of all state forestland)
  - Slightly expanded ability to harvest stands with Swiss needle cast stands in HCAs

# Initial Concerns with EIS

- Alternatives are too narrow only differentiate slightly from each other
- "No Action" alternative is misleading assumes harvest levels lower than current average
- Feds eliminated "county alternative" that would have released more acres for harvest while protecting species
- Socioeconomic is incomplete and not thorough enough all direct and indirect economic activities needs to be considered

#### Need more time and analysis to get this right!

## Harvest Comparisons

- The No Action alternative assumes harvest levels **nearly 40 MMBF lower than FY2023** proposed harvest levels and **over 100 million board feet lower than the 2017-2021 average**.
- The other four alternatives are extremely narrow in scope, only **differentiating in harvest** levels by no more than 10 MMBF average per year for the entire permit area.

Table 1: Timber Volume Harvested from BOFL by County								
Total Volume MBF (thousand board feet)								
County	2017	2018	2019	2020	2021			
Benton	7,139	3,590	4,699	4,058	1,310			
Clackamas	3,019	3,225	805	2,124	218			
Clatsop	103,963	113,528	62,896	89,826	72,193

Marion	7,829	5,096	16,547	1,728	21,760			
Polk	0	0	0	2,578	1,291			
Tillamook	80,237	86,216	100,292	84,635	81,136			
Washington	11,362	40,846	52,073	19,328	36,297			
TOTAL	264,421	315,224	297,202	238,345	260,051			

AREA	District	Draft FY23 AOP Annual Harvest Objectives and Plan Acres					
		Implementation		Planned Harvest Acres			
		Plan Average Volume (MMBF)	Harvest Volume (MMBF)	Regeneration	Partial Cut		
NWOA	Astoria	73	73.3	1,162	1,147		
	Forest Grove	61	62.8	1,529	190		
	Tillamook	47	48.8	2,146	0		
	North Cascade	8-15	8.2	230	156		
	West Oregon	12	12.8	236	565		
SOA	Western Lane (Veneta)	12	9.7	228	0		
	Western Lane (SWO)	1.4-2.2	2.6	87	0		
	Western Lane (Coos)	0	0	0	0		
	Subtotal NWOA / SOA	214.4 to 222.2	218.2	5,618	2,058		

#### **Timber Harvest Projections for Alternatives**

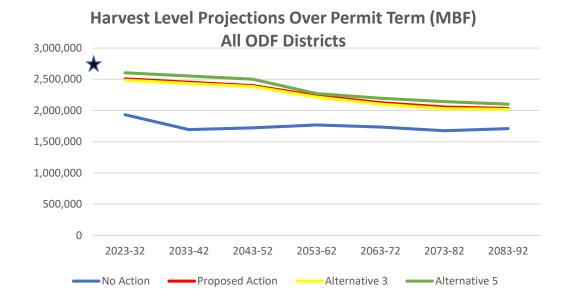

Year	No Action	Proposed Action	Alt. 3	Alt. 4	Alt. 5
1-25	179.3	247.0	246.1	247.0	258.0
26-50	174.8	221.7	220.8	221.7	227.0
51-70	169.3	204.3	203.3	b	212.2

Source: Forest model

<sup>a</sup> Includes clearcut harvest and thinning.

<sup>b</sup> Alternative 4 would have a 50-year permit term.

MMBF = million board feet

 $\star$  = previous 5 year average

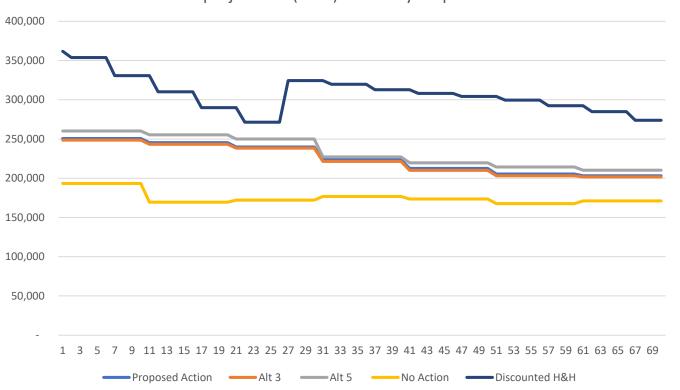

### **Tillamook County Socioeconomic Results**

- Tillamook County will receive \$16,542,343 annually under the HCP a decrease from the previous five-year average of \$19,727,600.
- This year, NKN School District received approximately \$4.1M in state timber. Under the HCP, NKN will receive 1.3-\$2.2M.

NKN SD 56	2023-32	2033-42	2043-52	2053-62	2063-72	2073-82	2083-92
No Action	\$13,563,795	\$12,409,101	\$14,082,364	\$16,868,707	\$15,423,807	\$14,499,568	\$14,788,761
Proposed Action	\$21,701,770	\$24,175,697	\$26,586,779	\$25,003,597	\$17,421,881	\$19,622,742	\$22,594,744
Alternative 3	\$21,853,071	\$23,643,281	\$26,785,032	\$24,431,313	\$16,646,671	\$19,200,763	\$22,595,350
Alternative 5	\$22,113,467	\$25,368,214	\$26,551,464	\$25,636,019	\$18,465,233	\$19,542,795	\$23,585,235

#### **More Accurate Harvest Comparison**

- The dark blue line is ODF's Wood Emphasis model from the 2006 Habitat and Harvest data discounted by five percent
- The Proposed Action and alternatives are well below what ODF could be harvesting.

Harvest projections (MBF) over 70-year permit term

# NEPA/EIS Process

- ✓ National Environmental Policy Act (NEPA) analysis & environmental impact statement (EIS)
- ✓ Alternatives analysis
- Socioeconomic report of financial impacts to counties and taxing districts
- ✓ Public comment period closed June 1

Board of Forestry HCP update/direction – *September 7<sup>th</sup>* Final EIS and approval from Feds – *early 2023* Final approval of HCP by the Board of Forestry – *Spring 2023*

# How you can help

- Testify at July 20<sup>th</sup> and Sept 7<sup>th</sup> BOF meetings
- Comments directly to the Board of Forestry, the State Forester, and the Governor's Office:
  - <u>boardofforestry@oregon.gov</u>
  - <u>cal.t.mukumoto@odf.oregon.gov</u>
  - jason.miner@oregon.gov
