

Student Safety Update

Enhancing Student Safety

1. All recommendations that could be done without bond money have now been completed except for the middle school weapon's detection systems.
2. The next generation weapon's detection system has arrived at MHS.
3. Once tested, we will consider them at the middle school level and MNTHS.

Enhancing Student Safety

TEA District Vulnerability Assessment was completed

- Out of several thousand possible items, auditors only identified 81 items to correct. We did very well so thank-you police, facilities, and technology departments.
- 13 of 81 items have already been fully addressed and cleared by TEA.
- Most improvements are due to be completed by March 13, 2026
- Trustees were briefed on audit in executive session on Jan. 12th and will continue to be updated.
