

Geneva CUSD 304 Textbook Adoption Proposals for 2016 - 2017 School Year

Title	©	Publisher	Course/Grade	Notes
English				
<i>The Language of Composition</i>	2013	Bedford/St. Martin's	AP Language & Composition	This is a new AP Course. The content matches the requirements of both the course and AP test as determined by the AP College Board.
<i>Unbroken: A World War II Story of Survival, Resilience and Redemption</i>	2014		AP Language & Composition	These selections are based on AP Language non-fiction supplemental reading guidelines and meet the objectives of the AP Language curriculum. Students will use these tools for rhetorical analysis as prescribed by the College Board.
<i>Amusing Ourselves to Death: Public Discourse in the Age of Show Business</i>	1985	Penguin Books	AP Language & Composition	
<i>The Shallows: What the Internet is Doing to Our Brains</i>	2011	W.W. Norton & Co	AP Language & Composition	
<i>Founding Mothers: The Women Who Raised Our Nation</i>	2005	Harper Collins Publishing	AP Language & Composition	
World Languages				
<i>Gran Hotel Video Series</i>	2012	Divisia Home Video	Spanish IV, IVH, V and AP	This international video series provides an authentic resource that supports listening comprehension & Spanish history. Exposure to authentic sources of the target language is crucial to student success in high-level world language courses.
Math				
<i>Pre-Calculus with Limits: A Graphics Approach 7th edition</i>	2016	Cengage Learning	PreCalculus and PreCalculus Honors	The current pre-calculus textbook has a copyright of 2001. The new edition of the textbook will provide students with electronic access to myriad resources. In addition, the WebAssign feature will provide students with homework tutorials and instant feedback.

Science				
<i>Campbell Biology, 8th Edition</i>	2014	Pearson	AP Biology	This text provides thorough coverage of biological concepts along with a comprehensive technology components. The resource provides students artwork, graphics, charts, graphs, interactive content, and other supplements that enrich the concepts for diverse learners.
<i>STEMScopes, Middle School</i>	2016 (ongoing)	Accelerate Learning	Middle School Science, grades 6,7,8	This completely digital resource was constructed by researchers at Rice University to fully achieve the multi-dimensional model of the Next Generation Science Standards. The digital nature of STEMScopes means the instructional units are both completely customizable and have the capacity to be reviewed and updated.
Social Studies				
<i>Campaigns and Elections</i>	2015	W.W. Norton & Co	Political Campaigns and Elections	The course is a new Social Studies elective designed to engage students in the election process. While teachers will construct much of the curriculum using primary documents this text covers the essential topics and highlights key focus areas of the course.
