

# Clara Brownell Middle School

October 2025

We wrapped up our fall testing for MAPs on October 3rd, and we should get access to our growth reports next week. Over the next few weeks, ELA and math teachers will meet with each of their students individually to set growth goals for winter testing. During these meetings teachers use MAP reports to point out student strengths and areas for improvement, and students and teachers work together to suggest activities and resources to help students reach their goal. Every single student, from those performing well above their grade level to those performing way below, get to celebrate a strength and identify an area in which to improve. This is how we ensure all students focus on growing into their best selves.

We appreciate Mr. Collins and the leadership students putting in the work to highlight mental health awareness in the month of September. Our hallways are full of inspirational messaging and resources for students, including numbers for peer support hotlines, SafeOregon reporting information, and positive messages on sticky notes that students can take.

#### **Discipline**

We had 22 referrals during the month of September, outlined in the table below. The 5 referrals for fighting include 2 students who got into a fight and 3 students who encouraged them. Unrelated, the two incidents for weapons involved a student who brought his grandfather's pocketknife to school to show another student. A threat assessment was completed.
