

Palmer Wireless' Wireless Broadband Project with Becker Schools

(Prepared by Palmer Wireless)

February 21st, 2013

Palmer Wireless will provide the following services in exchange for tower rent at Becker Schools:

20 mobile 3G/WiFi modems for Becker bus fleet @\$790 per modem	\$ 15,800 *
Internet Service for 20 bus modems (\$37.99 per mo/ per modem for 5 years)	\$ 45,588 *
Backup ISP service with 5 Mbps peak service (\$47.99 per month over 5 years)	\$ 2,879 *
Space on the tower to install up to a quantity of 6 antennas, Becker Schools to provide and maintain their wireless internet antennas @ \$100 per antenna for 5 years	\$ 36,000
Total Value	\$ 100,267

Palmer Wireless will provide space on the tower for a bank of lights to illuminate the desired area of the campus which could be the soccer field or replacement of one of the lights on the football field.

*The reference to 5 years is to provide a value over time, services would be provided throughout the term of the agreement to the above quantity of modems, antennas and ISP services.

The bus modems will have GPS capability, however the tracking services/cost is the responsibility of Becker Schools.

Palmer Wireless/Palmer Towers would purchase, engineer, permit, project manage and construct a 170 foot monopole at the Becker campus that would be used for the Palmer Wireless network as well as providing space for the Becker school WiFi network. A lease would be developed that provides for the placement and operation of the tower and the equipment shelter in exchange for use of the selected services listed above. We would require assistance from the school for the zoning approval with the city of Becker along with coordination with the school during the engineering of the tower for placement of the light bank.
