Mineola ISD 2014-2016 Technology Plan

Spring 2014 is the biennial review of the Technology Plan for Mineola ISD. Every two years we make major changes to the Goals and Objectives of the plan and submit it for approval by the Texas Education Association.

The review process includes staff members, parents and community members. Members were given copies of the plan and met as a group on March 6th. The plan is then submitted to peer reviewers from around Region VII. If both reviews approve the plan it is forward to TEA. Our plan has been reviewed and accepted. Approval by TEA allows our district to apply for E-Rate funds from the Federal Government. This generally amounts to \$18,000 for phone service, internet access and our website.
