

Request for Curriculum Change Deletion of Course/Content Area

Date: 10/27/2017

Department/Subject: Agricultural Education

Person(s) initiating the request: Mike Miron

School(s): High School

Grade(s): 10-12

Course Title: Engineering & Tech in Agriculture (0700)

Describe the process that led to this request for the deletion of course/content area:

This course has not received enrollment to justify a section for at least 10 years. With this in mind, several of these topics have been more naturally integrated into other classes such as: Alternative Energies, Animal Science & Animal Health. Current agricultural advancements are more clearly taught in the content area rather than a stand alone course. As a result, the Agricultural Education PLC recommended deleting this course.
