

SCHOOL BOARD MEETING REPORT

Board Meeting Date: 13-Jan-15

Superintendent: David Holmes

Administrator/Staff: Dennis Misner

Type of Item: Informational Action

Please state your proposal briefly and clearly. What do you want the board to know, discuss, or decide?

We have applied for the OSAA student participation grant for up to \$10,000. The grant would enable North Valley to partner with College Dreams on a summer transition program for current 8th-10th graders with the notion of creating a connection for at risk kids to our activities and athletics. If we won the grant we would also be able to fund some renovations in our gym, equip our PE department with extra equipment, and reward students who fully participate in the summer programs in activities through 2015-2016.

Provide history/background information on your proposal:

OSAA Foundation awards 5 to 7 grants per year in Oregon. We have good ideas to connect kids to school and the additional funding would be advantageous.

List the advantages of your proposal:

A summer school/fitness program could be funded. Some renovations to the gym could happen. More kids would be connected to school through activities and athletics. Student achievement would rise.

List possible disadvantages of your proposal:

We cannot think of how \$10,000 in extra funding would be a disadvantage.

List possible alternatives that could also offer a solution to your proposal. Why were they not recommended?

None

Superintendent's recommendation(s):

Approve: Yes No
