Arab American History Month Post

Posted on LinkedIn and Instagram at 8am PST April 1, 2026.

Copy:

The Arab America Foundation's 2026 theme, "Many Voices, One Community," reflects the breadth of Arab American identities while affirming the shared values that unite the community. Arab Americans trace their roots to more than 22 countries and represent a wide range of faiths, languages, professions, and lived experiences. "Many Voices, One Community" underscores the idea that these voices enrich our communities and deepen our collective story.

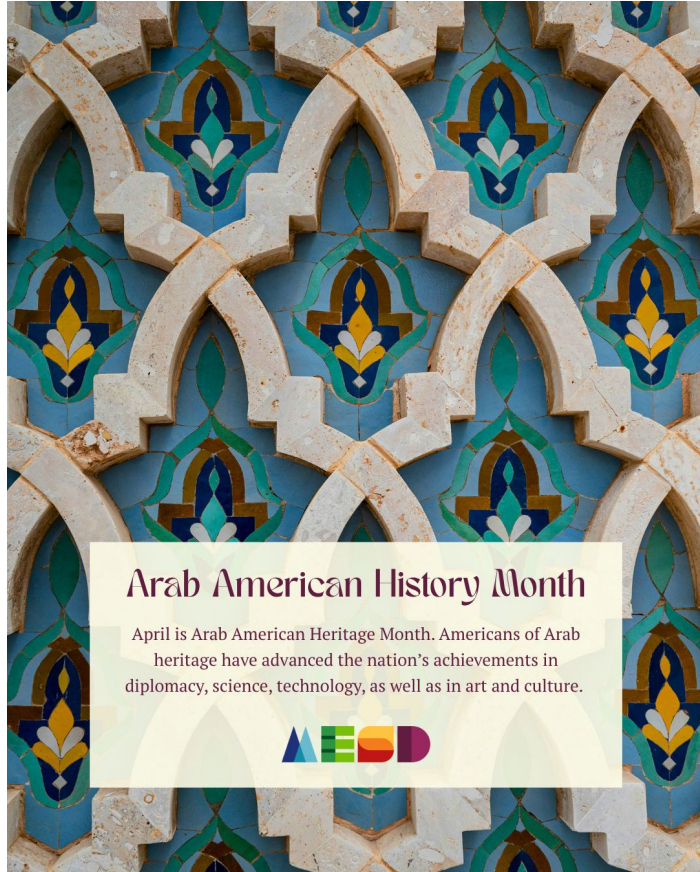

When students see their cultures and histories reflected, school feels more like home. MESD is proud to be a district where all are welcome.
