

Eagle Scout Proposal

By. Caleb Plagman

Projects for Lakeview

With the addition of two new benches, kids will be able to sit outside to wait for their rides home.

The area around the sign would get new landscaping to make it look nice and new.

Benches

The proposal includes two benches that will look similar to this photo. The benches can be made out of composite or pressure treated wood.

The wood will be determined by cost, but both will result in the same outcome.

If the pressure treated wood is chosen, the benches would be able to be stained in a color of choice.

Landscaping

The plan for the landscaping is to remove the brick and weeds. Depending on how large the area is, grass and mulch will be added to make the area easier to maintain. Low maintenance plants such as hydrangeas, hostas, sedum, and daylilies would be added around the sign. Landscaping brick could be added around the flowers and mulch.

Projected Budget

Benches

- Pressure treated: \$242.00
- Composite: \$718.00

Landscaping

\$770.00

Total

\$1012.00 or \$1488.00

Timeline

Benches

March/April 2026

Landscaping

April/May 2026

Thank you for your time.
