The first 2 days of this workshop will focus on Design Edge software specifically as it is used in plasma cutting. Attendees will start with basic settings; we will develop a full understanding of what each individual choice does and how it applies to your work. We will spend time with each of the drawing and edit tools and the coordinate system so you can hone your skill to produce great cuts in metal whether it be for art or dimensioned parts. A portion of day two will be spent learning about the wiring and mechanics of the table itself which will come in handy should you need to troubleshoot problems with your machine!

The final day of instruction will be a look at the powerful tracing capabilities in Design Edge. Instruction will end at NOON and we will work continue in the afternoon working on projects together to go from a picture to a cut

ready file. We will build on the information from the first 2 days and learn how tools can be used in combination, reference points can be established, and how to get the most out of your Advanced Design software. If you want to **Make Money in Metal Art** or **Draw Dimensioned Parts Fast** then this last day is a big step in the right direction! While I recommend allowing yourself the entire day, if you need to go or catch a flight it won't disrupt class nor will you miss any prepared instruction on Saturday afternoon.

Your ticket includes:

- Workshop enrollment and study materials.
- Lunch on each enrolled day.
- Coffee, tea, soda, and water daily
- 6-month Free Trial to the Learn Plasmacam Network

We have a group rate of \$109 per night which includes breakfast (not including tax). You will be responsible for reserving your room if needed; **the booking link and group discount code will be provided in your confirmation email.**

Registration: \$650 (additional attendees \$450 each) Please email for groups larger than 5)

**** Purchase is NON-REFUNDABLE. Registration is transferable to future classes. ****
