November Policy Meeting

INTERNAL REVIEW OF POLICIES

Policy Number	Issue or Item to Discuss Re: Current Policy	Superintendent Recommendation
6:280	We do not regularly hold back or use this process	Retention is proven to actually inhibit academic growth. We have not done so since I have been here and would be hard pressed to be convinced it is in the best academic interest of most kids. Therefore, I think the policy needs review
5:230	Removal of student language is troubling to me	To be read in its entirety and discussed – my issue is noted in the previous column
7:190	Student handbook is created at building level and shared with BOE – not from Superintendent and to define what distributed means	If the BOE is ok with this process, we just have a little wordsmithing to do
7:200	Would suggest we clean up suspension appeal language	Very vague and ambiguous. Puts a lot of pressure on the BOE and does not provide clarity for admin or parents. My suggestion would be that any suspension can be appealed to the Supe. If the Supe denies, it can be brought to the BOE. In ALL cases, the student will serve the consequence — the question is whether or not it is removed from their record
7:240	Extra-curricular drug testing no longer in place and complete review of the TARGET program	Either we need to pay up or take out
7:290	Full suicide prevention program to be in place	Counselors are working on this
7:250 and 7:290	Building level student support committees must be in place	Counselors are working on this
7:300	Refers to local drug testing program	Same as above
7:302	Does not match BOE approved changes in handbook	Switch to match the approved handbook changes
8:20	Says non-profits to NOT be charged during regularly scheduled staff hours – currently we	Discussion worthy

charge a nominal fee // BOE policy does not	
match accompanying AP materials
