

Technology Dept Report

January 16, 2017

Classroom Technology

- We received the eRate funds for the Wi-Fi for Minico, Mt. Harrison, and Paul. During the Christmas break we were able to get them installed. Now we can have better control of those schools.

Security/Video

- Paul and Acequia's new video servers were installed during the Christmas break. We are waiting for the equipment and installation of all the dead cameras for Minico and Mt. Harrison. After the dead cameras are replaced we will increase the coverage of the entrance doors as Phase II.

Online Registration

- We are working on a new student registration form that will allow a brand new student to fill out all the necessary paper work online without the need to come to the school. Because of the non-stop work orders that keep being submitted, this project has been put at a lower priority for the time being.

Phones/Intercom

- We installed intercom speakers in the classrooms and halls of the TLC, so they could have a more school like environment for broadcasts, bells, and lockdowns.

Work Orders

October	November	December
117 New	111 New	73 New
103 Resolved	106 Resolved	107 Resolved
80 Incomplete	85 Incomplete	51 Incomplete
