SITE IMPLEMENTATION SUPPORT - LITERACY

Site visits and/or demonstration site visits provide the following important services:

Classroom Teacher Coaching, Lesson Study, Program Planning

With the local coach, the consultant supports classroom teachers based on needs, requests, observation, and/or data analysis and conducts collaboratively planned demonstration lessons. The consultant works with coaches and teachers to plan grade-level grouping and interventions based on an analysis of assessment data. The consultant also provides review and a deeper understanding of instructional materials, reviews and practice instructional routines, resolves implementation issues, and provides coaching on implementing effective instructional techniques.

Executive Coaching

The consultant provides personalized coaching sessions and classroom walkthroughs with instructional leaders to ensure they understand how the instructional program is designed, what effective implementation of the components of the core curriculum and supplemental intervention programs looks like, and how to use data to improve student achievement.

Assessment Support

The consultant provides assistance in the use of assessments. They work closely with staff to show them how to analyze the data to plan for access and engagement in high-quality grade-level instruction for all students, set up effective student groupings, and incorporate specific interventions based on defined needs.

Off-site Continued Support

Through a combination of on-site, phone, and email support, reports, and the development of client resources (agendas, planning templates), the consultant manages the CORE program of services closely with site administrators and teacher leaders and serves as the liaison to CORE.

Participant Outcomes

- Identify specific implementation issues and plan for organization, resources, and support needs.
- Deepen the expertise of school leaders through training on instructional materials and assessment, as well as visits to selected classrooms to observe instruction and practice coaching and feedback.
- Improve classroom instruction as the CORE Consultant models lessons in classrooms and conducts classroom observations and coaching
- Help teachers more deeply understand adopted instructional materials and resolve implementation-related issues.
- Enable all instructional staff to use data to plan student groupings and interventions.
- Help coaches learn to analyze test data, facilitate on-site collaborative conversations, and develop solutions to implementation challenges.
