

Recommendation: Board Meeting November 12, 2025, Item “M” Approve Student Expulsion

Submitted by: Superintendent Carlsen

Recommended Motion: Following Board Policy 5005 “Safe Schools-Student Discipline-Behavior” I am moving that The Board expel the student that has been presented to us for up to one year.

Background: The student brought a loaded handgun to school. It was determined it was basically for show and tell and to impress his peers. His parents and the student met with me for a Safe Schools Violation Hearing and Policy 5005 was explained.

Policy Implications: In board Policy 5005 on page 10 of 24 number 4.a. Explains that possession of a loaded handgun is a mandatory expulsion. The policy further down states that within 45 days of the expulsion the district will meet with the student and parents/guardians to find a way to incorporate them back into school.

Financial Implications: None

Staff Implications: This will require the building administration and a counselor to monitor the progress of this student and meet on occasion to make sure their education is continuing.
