<b>RECOMMENDATION:</b>	Information Only

**REASON FOR BOARD CONSIDERATION:**

This is a monthly report for the Board's information.

**Charles Lettenmaier (Industrial Technology)**

In Industrial Technology, we just updated two of our machines, that will give us more capacity to teach students more advanced techniques. We still have a bit to go to get to where I really want to be.

Baby steps.

I am also in the process of making our own vises to hold parts. We are doing this mainly to save a lot of money. This is significant because if we were to purchase the items that we are making, a conservative estimate would be over \$50,000.

Thank you.
