2450 - COMMUNITY AND ADULT EDUCATION

The Board of Education believes that education is a continuous process throughout life and supports the position that the District should cooperate with other community agencies in providing educational, cultural, and recreational opportunities for all of its citizens. The school, in this setting, becomes a force for community service and improvement; and the values the community seeks for children in the regular school program are, thus, available for all citizens through the community and/or adult program.

With regard to community education, the Board may provide programs in the day and evening.

For the purpose of meeting the interest of the community.

With regard to adult education, the Board also may provide a continuation program for anyone over the age of sixteen (16) who is not attending high school as an opportunity to complete the requirements for a high school diploma.

The Superintendent shall develop and implement administrative guidelines whereby the schools are available to residents of the District for the above-stated purposes and such programs have equal access to the District's facilities and its instructional equipment, materials, and supplies.

Legal A.C. Rule 388.281 et seq.
