

Summer at Red Wing Community Ed & Rec

Hiawatha Valley Adult Education

ABE had 5 adult students receive their GED (High School Equivalency Diploma) and 6 others received their Adult Diploma from the State of MN. Two of these graduates completed their diploma while in the Goodhue County Jail.

Red Wing Water Park has been open and bringing many smiles to the faces of adults and kids who were more than ready to be back in the water. We have been able to maintain enough lifeguards and staff but are still taking applications for employment. Visitors from New York spent two days at the pool while on vacation and were extremely impressed by the whole operation and how low the cost was to swim for a whole day at such a beautiful facility.

Driver's Education

Thirty students completed 30 hours of Driver's Education Classroom in June and another 30 will complete class in August. Thirty-three students began their Behind the Wheel instruction this summer in addition to the 50 plus who were currently working to complete their 6 hours. We now have 4 driving instructors and have added a second Driver's Ed car.

Youth Enrichment

We held a Parents' Night Out with Kids' Junction Staff. Parents were able to bring their children for a night of fun while they had time away. Our Mega Mess KidCreate Classes have been popular and the Summer Theatre Intensive Camp happening at Hobgoblin has begun. Mark your calendars for their production happening on Friday, July 23rd at 4pm and 7pm.

Youth Recreation

We have an exciting summer of physical activity happening all around town. Golf, Basketball, Tennis, Hockey, Baseball, T-Ball, Volleyball, Soccer, Athlete Strength and Development are just a few! Our Trap Team won state championships as well as state wins for our Ultimate Frisbee team.

Adult Programming

This summer has been filled with dog training, adults learning how to balance their health and mental health, learning social media, various home business ideas and financial security. As well as the ever popular Church and Men's Softball Leagues!

Park Naturalists

Our two Park Naturalists have gotten children and adults out on our beautiful local trails hiking and learning. They have taught classes about Hummingbirds, Nature Art, Wildflowers, Butterflies and Animal Tracks. They are excited to host the second annual Jr. Naturalist Camp in August.

Kids Junction

We are excited to have kids out and active on field trips again this summer! All safety precautions are being followed with top priority. Students continue to wear masks while on transportation and stay in groups. Kids Junction received additional funding through the MN Department of Education through the Department of Human Services, this will help the program as costs continue to be high with social distancing, disinfecting, and other safety protocols.

The Community Ed & Rec Fall 2021 Brochure will be out in early September.
