

I am requesting the school board to designate May 24th at 6:30 p.m. as a school board workshop.

The discussion items are:

- Review preliminary plans for the November 6th facility and deferred maintenance election.
- Discuss operating referendum scenarios for the November 6th election.

Mark Lenz of MLA Architects, Pat Overom of ICS consulting, Chuck Stanger, Joe Prom, and I are meeting every other week with the board facilities committee (Mike & Phil) to develop a facilities and deferred maintenance recommendation for the board to consider on May 24th.
