Agenda Item: Progress of 2017-2019 Tactical Initiatives

Item ID

Purpose of this Agenda Item: Information/Discussion

Background:

After consultation with Calvin, we've finalized plans for your work session next week. Dinner will be served, and I will provide the board with a verbal report (accompanied by support materials) on the progress made this year toward achieving the Tactical Initiatives for the year. Here's a link to the website with those initiatives:

I will provide a status report on each initiative. I will also have "artifacts" for your reference if you wish to dive deep into the evidence of our district's accomplishment of each objective. I believe this working dinner will be a great time to celebrate the school year behind us and begin to envision priorities as we move forward.
